3. An order made by the Local Government authorising the construction of any tramways in any municipality or area may be obtained by—

By whom orders authorizing the construction of tramways may be obtained.

1*st*.—The local authority of such municipality or area.

2*nd*.—Any person, persons, corporation or company with the consent of such local authority.

And any such local authority, person, persons, corporation or company shall be deemed to be "promoters" of a tramway, and are in this Act referred to as "the promoters."

When applications for authority to construct tramways may be made.

Where the local authority consists of a body of persons, Board or Committee, no application shall be made to the Local Government for the purpose of authorising the construction of tramways in a municipality or area until a resolution, approving of the intention to make such application, shall be passed at a special meeting of the members constituting the local authority in such municipality or area.

Such special meeting shall not be held unless a month's previous notice of the same and of the purpose thereof has been given in the manner in which notices of meetings of such local authority are usually given, and such notice shall require that all objections to the proposed tramways shall be submitted for the consideration of the local authority before the date fixed for the special meeting.

Such resolution shall not be passed unless two-thirds of the members constituting such local authority are present and vote at such special meeting and a majority of those present and voting concur in the resolution.

Documents to be forwarded with application.

4. At the time of making an application for such order, the promoters shall also forward to the Local Government—

2*nd*.—A copy of the proceedings and resolution of the special meeting held under the provisions of section three.

5*th*.—All necessary maps, plans, sections, and drawings of the proposed work.

5. The Local Government shall consider the application and may, if it think fit, direct an enquiry as to the propriety of proceeding upon such application, and it shall consider any objection thereto that may be filed on or before such day as it may from time to time appoint.

Local Government may make and publish order.

Where it appears to the Local Government expedient and proper that the application should be granted with or without addition or modification, or subject or not to any restriction or condition, the Local Government may settle and make an order accordingly, and such order shall be published in the *Calcutta Gazette*.

Form and contents of order.

Every such order shall empower the promoters therein specified to make the tramway upon the gauge and in manner therein described, and shall contain such provisions, fix such maximum rates of fare, and prescribe such penalties for default as (subject to the provisions of this Act) the Local Government according to the nature of the application and the facts and circumstances of each case thinks fit.

Where the promoters are not the local authority, the order shall set forth the agreement made between the promoters and the local authority, and one of the provisions of such agreement shall settle the manner in which the value of the tramway shall be calculated in the event of its purchase by the local authority under sections thirty-nine, forty or forty-one.

Power to revoke, amend or vary order.

6. The Local Government on the application of any promoters empowered by an order to construct a tramway may from time to time revoke, amend or vary such order by a further order:

Local Government may in certain cases dispense with consent of local authority.

8. Where it is proposed to lay down a tramway in two or more areas, and any local authority having jurisdiction in any of such areas does not consent thereto, the Local Government may nevertheless make an order authorising the construction of such tramway if it is satisfied after enquiry that two-thirds of the length of such tramway is proposed to be laid in an area or areas, the local authority of which area or areas does consent thereto.

Promoters' powers to cease at expiration of prescribed time.

9. If the promoters empowered by any order under this Act to make a tramway do not, within the period prescribed in such order, complete the tramway and open it for public traffic; or,

if the works are not substantially commenced within the latest date prescribed in such order for their commencement; or,

if the works, having been commenced, are suspended without a reason sufficient, in the opinion of the Local Government, to warrant such suspension;

the powers given by the order to the promoters for constructing such tramway, executing such works, or otherwise in relation thereto, shall cease to be exercised to the extent and in the manner specified in such order.

A notice inserted by the Local Government in the *Calcutta Gazette* to the effect that a tramway has not been completed and opened for public traffic, or that the works have not been substantially commenced, or that they have been suspended without sufficient reason, shall be conclusive evidence for the purposes of this section of such non-completion, non-commencement or suspension.

Power to make rules.

13. The Local Government may from time to time make, and when made, may revise, modify, annul, add to, or confirm any rules it may be expedient to make for the purpose of carrying this Act into execution.

PART II.

Power to break up streets.

15. The promoters may from time to time, for the purpose of constructing and maintaining any tramways under this Act, open and break up the soil and pavement of any of the roads upon which the construction and maintenance of such tramway has been authorized by the order of the Local Government in that behalf, and therein lay sleepers and rails, and repair, renew, alter or remove the same; and may, for the purposes aforesaid, do in and on such roads all other acts which shall from time to time be necessary for constructing and maintaining their tramways:

Such notice to be given at least seven days before the commencement of the work.

2*nd*.—They shall not open or break up or alter the level of any such road, except under the superintendence and to the reasonable satisfaction of the local authority, for which superintendence the promoters shall pay all reasonable expenses, unless the local authority neglect to give such superintendence at the time specified in the notice, or discontinue the same during the work.

3*rd*.—They shall not, without the consent of the local authority in writing, open or break up at any one time a greater length than a quarter of a mile in any one length and shall leave an interval of at least a quarter of a mile between any two such places at which they may open or break up such road.

4*th*.—They shall, with all convenient speed, and in all cases within two calendar months at the most, unless the local authority otherwise consent in writing, complete the work for which the said road shall be broken up, and fill in the ground, and make good the surface, and, to the reasonable satisfaction of the local authority, restore the road to as good a condition as that in which it was before it was opened or broken up, and clear away all surplus materials or rubbish occasioned thereby.

5*th*.—They shall in the meantime, when such road is opened or broken up, cause it to be fenced and watched, and to be properly lighted at night.

6*th*.—They shall make good all damage done to the gas and water-pipes, sewers, drains, culverts, bridges, and fences whether belonging to the local authority or to private individuals, by the disturbance thereof, and shall not cause any interruption in the supply of gas in or through any main or pipe, or the flow of water through any pipe, drain, culvert, bridge or other waterway; if they fail to make such damage good, or to remove such interruption within reasonable time, the local authority may, without prejudice to the penalties payable under section twenty-nine, cause the same to to made good at the promoters' expense.

17. In exercising the powers given to them by the last two preceding sections, the promoters shall arrange their work so as to afford the least possible obstruction to the ordinary traffic of the roads or to the ordinary means of approach to houses situated on either side of the roads, and so as to admit of as free and unrestricted entry at all times into the sewers, drains, culverts, and bridges for the time being in use, as is possible under the circumstances, and also so as to enable proper repairs to be made to water or gas pipes by the direction of the local authority.

Promoters not to obstruct ordinary traffic.

18. Nothing in this Act, or in any bye-law made under this Act, shall take away or abridge the right of the public to pass along or across every or any part of any road along or across which any tramway is laid, whether on or off the tramway, with carriages not having flange wheels or wheels suitable to run on rails. But the right of the public shall not include the use of any new roadway, embankment or earthwork constructed or acquired for the special and exclusive use of the tramway.

PART V.

Miscellaneous.

36. The promoters shall be answerable for all accidents, damages, and injuries happening through their act or default, or through the act or default of any person in their employment by reason or in consequence of any of their works or carriages, and in all cases where the promoters are not the local authority they shall save harmless the local authorities and their respective officers and servants from all damages and costs in respect of such accidents, damages, and injuries.

Promoters to be responsible for all damages.

37. Nothing in this Act shall limit the powers of the local authority or the police to regulate the passage of any traffic along or across any road along or across which any tramways are laid down, and such local authority or police may exercise their authority as well on as off the tramway, and with respect as well to the traffic of the promoters as to the traffic of other persons.

Power for the local authority or police to regulate traffic on roads.

The local authority shall not be liable to pay to the promoters any compensation for loss of traffic occasioned by the reasonable exercise of such authority.

38. Nothing in this Act shall be construed to prevent the local authority or any corporate body or persons in the exercise of the powers conferred upon them under any law for the time being in force from opening breaking up, widening, altering, diverting or improving any of the roads, bridges, drains or culverts

Reservation of power over roads.

traversed by the tramways for the purposes for which they may now lawfully open, break up, widen, alter, divert or improve the same: Provided—

(1) that they shall cause as little detriment or inconvenience to the promoters as circumstances admit;

(2) that they may (if absolutely necessary, but not otherwise) order the temporary stoppage of traffic on the tramways or any of them on giving twenty-four hours' previous notice in writing to the promoters;

(3) that before they commence any work, whereby the traffic on the tramway will be interrupted, they shall (except in cases of urgency, in which cases no notice shall be necessary) give to the promoters notice of their intention to commence such work, specifying the time at which they will begin to do so; such notice to be given eighteen hours at least before the commencement of the work;

Discontinuance of Tramways.

Tramways to be removed in certain cases.

39. If at any time after the opening of any tramway for traffic, the promoters discontinue the working of such tramway or of any part thereof for the space of three calendar months (such discontinuance not being occasioned by circumstances beyond the control of such promoters, for which purpose the want of sufficient funds shall not be considered a circumstance beyond their control), and such discontinuance is proved to the satisfaction of the Local Government, the Local Government, if it think fit, may by order declare that the powers of the promoters in respect of such tramway or the part thereof so discontinued, shall from the date of such order be at an end, and thereupon the said powers of the promoters shall cease, and determine unless the same are purchased by the local authority in manner by this Act provided. Where such order has been made the engineer or other officer appointed on that behalf by the Local Government may, at any time after the expiration of two months from the date of such order, remove the tramway or part of the tramway so discontinued, and the promoters shall pay to such engineer or officer the cost of such removal and of the making good of the road by such engineer or officer. Such cost to be certified by such engineer or officer, whose certificate shall be final and conclusive. And if the promoters fail to pay the amount so certified within one calendar month after delivery to them of such certificate or a copy thereof, such engineer or officer may, without any previous notice to the promoters (but without prejudice to any other remedy which he may have for the recovery of the amount) sell and dispose of the materials of the tramway or part of the tramway removed, either by public auction or private sale, and for such sum or sums and to such person or persons as such engineer or officer may think fit; and may out of the proceeds of such sale make and reimburse himself the amount of cost certified as aforesaid and of the costs of sale, and the balance (if any) of the proceeds of the sale shall be paid over by the said engineer or officer to the promoters.

Inability of Promoters.

Proceedings in case of inability of promoters.

40. If at any time after the opening of any tramway it appears to the local authority, or to the Magistrate of the district in which such tramway is situate, that the promoters of such tramway are insolvents, or that they are unable to maintain such tramway, or work the same with advantage to the public, the Local Government, upon a representation to that effect made by such Magistrate or local authority, may direct an enquiry by a referee into the truth of the representation, and if the referee shall find that the promoters are such insolvents, or that they are unable to maintain such tramway or work the same with advantage to the public, the Local Government may, by order, declare that the powers of the promoters shall, at the expiration of six calendar months from the making of the order, be at an end, and the powers of the promoters shall cease and determine at the expiration of the said period unless the same are purchased by the local authority in manner by this Act provided, and thereupon the engineer or other officer appointed on that behalf by the Local Government may remove the tramway in like manner, and subject to the same provisions as to the payment of the costs of such removal, and to the same remedy for the recovery of such costs in every respect as in cases of removal under the last preceding section.

Purchase of Tramways.

Local authority to have right of purchasing tramway after 21 years.

41. EXAMINATION OF CANDIDATES FOR APPOINTMENT TO THE SUBORDINATE EXECUTIVE SERVICE.

APPOINTMENT DEPARTMENT.

Darjeeling, the 30th April 1883

RESOLUTION.

READ—

Resolution of this Government, dated the 23rd February 1883, prescribing the conditions upon which appointments will in future be made to the Subordinate Executive Service in these Provinces.

In paragraph 6 of the Resolution cited above, it is stated that the examination to be held in 1884 will be restricted (1) to those candidates for employment in the Subordinate Executive Service whose names are now entered in the Government list of candidates eligible for employment as Deputy Magistrates and Deputy Collectors who may not have been provided with appointments during the current year (1883), and (2) to officers in the first and second grades of Sub-Deputy Collectors. The examination of 1884 will thus differ in character to some extent from the examinations which will be held in 1885 and subsequent years, inasmuch as it will not be an open competition, but will be limited to certain individuals who may be thought to have some claim upon the consideration of Government. Under these circumstances it will not be possible at this examination to enforce the test of the Entrance Examination of the Calcutta University, which candidates in future years will be required to have passed before they are permitted to compete. But in order to ensure that the candidates at the examination of 1884 are possessed of a fairly good English education, the test to be applied should, in the Lieutenant-Governor's opinion, be a somewhat strict one.

2. Full particulars regarding the examinations to be held in 1885 and subsequent years will hereafter be published. METEOROLOGICAL OFFICE, BENGAL,
The 27th April 1883.

JOHN ELIOT,
Meteorological Reporter to the Government of Bengal.

SUMMARY.

THE past week has been one of frequent local thunder-storms and heavy showers, which have given unusually general and abundant rain to the greater part of the province. It was pointed out in last week's summary that the excessive heat and dryness of the air had given rise to unusually strong sea winds from the Bay and hot land winds from Upper India. These converged towards Central Bengal, where the barometer was unusually low It is also probable that there may have been an indraught of cool air from the region of recent heavy snowfall in the Himalayas. From these or other causes the weather conditions became unsettled. The consequent disturbance has been much greater and more prolonged than is usual in April. Frequent thunder-storms with heavy rain and occasional hail showers have occurred almost daily in every part of the province, although or perhaps in consequence of the storms having been so numerous and widespread, the winds which accompanied them have been less violent than usual.

The first storms occurred in the western districts of South-West Bengal and the Balasore district, and also in the northern districts of North Bengal on the 21st. The stormy weather extended to the whole of Bengal on the 22nd, on which day rain was recorded at nearly every reporting station. Next day the weather was less unsettled, and local showers fell at a few stations, chiefly in East and North Bengal. On the 24th again storms occurred in nearly every district of Bengal. The atmosphere now became more disturbed, and storms with more or less heavy rain occurred on the 25th and 26th over the whole of Bengal (except the Moorshedabad district). The stormy weather now extended to North Behar and the eastern or hilly districts of South Behar. The showers in that area were, however, generally light. On Friday, the 27th, the rainfall was slightly less general. Heavy showers, however, occurred in East Bengal: Goalundo registered 3·84 inches on that day, and Brahmunberish, in the Commillah district, 3 6 inches. The week thus terminated with unsettled weather, and with the probability of the occurrence of frequent more or less general rain showers during the next week.

The following table shows the character and distribution of the rainfall for the past week, and also since the 1st of the month:—

DIVISIONS.	Normal average rainfall, 21st to 27th April.	Average rainfall, 21st to 27th April 1883.	Normal rainfall, 1st to 27th April.	Average rainfall, 1st to 27th April 1883.	Percentage of actual to normal rainfall of period 1st to 27th April 1883.
Orissa	0·45	0·46	1·55	0 70	45
South-West Bengal ...	0·60	1·90	1·83	2·09	114
East Bengal	0 84	4·35	3 04	4·78	157
North Bengal	0·72	3·53	1 97	4·22	214
North Behar	0·18	0·91	0·61	2·91	149
South Behar	0·18	0 16	0·40	0·16	40
Chutia Nagpur	0·10	0·24	0·51	0 30	59

The table shows that over the whole of Bengal abundant rain has fallen, and that the rainfall for the month is in consequence considerably above the average. This is most marked in North Bengal, where it is more than double the average, and to a less extent in Eastern Bengal and North Behar, where it is about 50 per cent. above the average. The rainfall in Orissa and South Behar for the past week has been much smaller in amount and barely up to the average, whilst in Chutia Nagpur it is below it. Hence in all these districts the rainfall for the month (up to the 27th) is considerably in defect, and is only from 40 to 60 per cent. of its normal amount. The Shahabad and Gya districts and Chutia Nagpur, across which the westerly winds of Upper India blew in full force, are the only districts in which the conditions of excessive heat and dryness have been continued from the previous and during the past week.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III. IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The direction of the movement of the wind are taken from the trace of a Beckley's anemograph

The mouth of the rain-gauge is one foot above the ground.

Report of Fluctuation of Traffic on the Eastern Bengal Railway for the month of April 1883.

EASTERN BENGAL RAILWAY COMPANY, TRAFFIC SUPERINTENDENT'S OFFICE, SEALDAH TERMINUS.

No. W40-824, dated Calcutta, the 11th April 1883.

From—W INNES, ESQ., Traffic Superintendent, Eastern Bengal Railway Company,

To—The Agent, Eastern Bengal Railway Company.

I BEG to forward the usual comparative statement of traffic for the month of February last, from which it will be seen that the gross weight carried over the railway during that period was 12,40,237 maunds, or 15 per cent over the figures for the corresponding period of 1882

The principal fluctuations are as under—

Increases.

Coal and coke ... ... 6,576 Mds.

The traffic in coal from Shamnagar shows an increase of 22,000 maunds, which is attributed to the increased quantities required by the Northern Bengal State and Darjeeling and Himalayan Railways Since the canal was re opened a considerable quantity of this traffic has been conveyed by boat from Chitpore to the mills in the vicinity of Sealdah, which accounts for the decrease of 16,000.

Gunny-bags ... ... 8 319 Mds.

Owing to the dull market prices at the forwarding station have been considerably reduced, and in consequence merchants in Calcutta have brought down large quantities in the hope of a speedy revival.

Hides and skins ... ... 3,871 Mds.

This increase is principally on traffic from Dacca, and is due to a brisk demand in the Calcutta market.

Jute, unscrewed ... ... 1 98,362 Mds.

Less do., screwed ... ... 26 380 „

Net decrease .. 1,71,982 „

The abundant crop of last season accounts for this large increased traffic from all stations shew an improvement.

Miscellaneous ... ... 4,834 Mds.

Materials forwarded for the Bengal Central Railway accounts for this increase.

Decreases.

Grain and pulse ... ... 25,382 Mds

10,000 maunds of this decrease is on traffic from Port Canning, Calcutta and South-Eastern State Railway to Chitpore 7,000 maunds from Northern Bengal State Railway and the balance on traffic from stations on this railway

Salt ... ... 19 245 Mds.

This traffic fluctuates from month to month, the increase of one month about counterbalances the decrease of another

Tea .. .. 4,498 Mds.

The whole of this decrease is on traffic from the Cachar line.

Report on the Fluctuations in Traffic on the Northern Bengal State Railway for the month of March 1883.

GENERAL REMARKS.

ALTHOUGH there has been a decline in the prices ruling in the Calcutta market for Jute and Gunny, heavy despatches of these staples continued going forward

In Jute 1,18,383 maunds and in Gunny 26,083 maunds have been forwarded in excess of the despatches for the same period last year. A decline in the traffic of these staples may now be expected, as it is the end of the season, and holders are reluctant to sell at the present low prices offering

The net increase in the traffic for March 1883 is 1,59,126 maunds, or 37 28 per cent.—a result which cannot but be regarded as satisfactory.

INCREASES.

Gunny-bags ... ... Mds 26,083

Though the Calcutta market is dull for hand-made gunnies, holders appear to be able to place consignments with profit to themselves and the railway This is probably due to the low freight helping to leave a margin. The greater quantity of these bags find their way to Bombay and are used for covering cases

Jute . . . .. Mds. 1,18,383

This increase at the end of the season and in the face of a falling market speaks very forcibly in favour of the retention of the low freight at present in force

Ever since this rate was introduced the jute traffic over this railway has steadily increased.

Railway material .. .. Mds. 44,501

This increase is almost entirely made up of coal for the Locomotive Department and railway material and coal for the Dinagepore extension

Tea . .. . Mds. 25

This is probably the first sample batch of the new crop.

Tobacco ... . Mds. 7 129

A fair demand having sprung up during the month in Bispath and Pulu for export, holders have seized the opportunity and placed as many consignments as they could A large increase on last year's traffic is not anticipated, as the season was very unfavourable from want of rain, and the crop is reported to be a very poor one indeed.

All other goods . .. . Mds 2,750

The miscellaneous traffic carried under this head is subject to fluctuations, which it is extremely difficult to trace. During the last two months heavy decreases have had to be noted. The above increase is probably due to this cause

DECREASES.

Ale ... ... Mds 701

This traffic is entirely composed of despatches of Commissariat beer for the troops in Darjeeling, and is dependent on the number stationed there.

Food grain . ... Mds 23 133

It is disappointing to have again to record a decrease under this head In comparing this traffic with that of past years, it must, however, be borne in mind that the rates then offering for rice and paddy—the principal staples carried—left a fair margin for profit, whereas during this season the Calcutta market has been fully stocked and extremely unfavourable to despatchers. At present rice and paddy are fetching in the interior from Re 1 to Re 1-8 per pucca maund This price obviously can stand but a low freight, and a reduction on the present rate seems advisable both in behalf of the trade and the railway.

Ginger .. .. Mds. 48

The cultivation of this article in these districts seems to have died out

Piece-goods ... . Mds. 889

The heavy despatches made for some time past will account for the falling off.

Salt .. .. Mds. 14,202

Owing to the upward tendency of prices at Calcutta despatchers to the mofussil are holding back

Sugar .. .. Mds. 873

The only reason that can be assigned to the decreased despatches in this staple for the past few months is that the local outturn is now in excess of the local demand. The reduced rate introduced last year has had no effect whatever in stimulating this traffic.

TRAFFIC SUPERINTENDENT'S OFFICE; *Saidpur, the 22nd April* 1883. G. S. LEONARD, *Traffic Superintendent.*

Report of Fluctuation of Traffic on the Tirhoot State Railway for the month of March 1883.

The total quantity of goods carried during the month of March 1883 aggregated maunds 3 89 930 as compared with maunds 3 69,912 carried during the corresponding period of 1882, and maunds 4,95,758 carried during the previous month, showing an increase of maunds 20,018 and maunds 94,172 respectively.

Of the several increases and decreases, the following are the most prominent ones and worthy of special notice:—

Increases.

Food-grains ... ... Mds 45,785

The greater part of this staple consists of rice from Durbhunga and the increase is due to large demands at local bazars down the line

Hides ... ... Mds. 3,373

The increase in this staple is due to steady demand at port, and as prices have a downward tendency, consignors are desirous to take advantage of the present rates before a further fall takes place

Piece goods ... ... Mds. 9,385

This increase is due to the approaching Hindoo marriage season.

Salt ... ... Mds 16,099

The increase under this head is due to the favourable rates now ruling

Saltpetre ... ... Mds. 4 290

There has been a fair demand in Calcutta, but at a moderate rate, hence the increase is not so satisfactory

Tobacco ... ... Mds. 17,329

Due to new crop having been harvested lately.

Decreases.

Coal ... ... Mds. 62,212

As the extentions of Tirhoot State Railway have almost arrived at their completion, the brick, burning has accordingly come to a close, hence the demand for this staple has nearly ceased.

Lime and kunker ... ... Mds. 11,522

The most part of this traffic is composed of kunker from Gunduck siding and Belaspore to Durbhunga for road cess and the new civil buildings; as the latter are approaching completion, the demand for these staples has decreased.

Railway materials ... ... Mds. 12,329

This fluctuates according to the portion of line under construction.

Seeds ... ... Mds. 3,595

The decrease under this head is owing to the easier rates prevailing in Calcutta markets.

NOTICE TO MARINERS.—(No 18).

RED SEA.

Shoal ground off Jebel Zukur.

INFORMATION has been received from the Agent of the Liverpool Salvage Association at Aden, communicated through the Political Resident, Aden, dated the 8th February 1883, of the existence of a sunken rock (near where the *Gulf of Finland* struck on the 18th October 1882) lying off Jebel Zukur island.

The rock, with a least depth of 15 feet over it, lies two cables E. N. E. from the East point of Jebel Zukur. It is outside the *Gulf of Finland's* present position, and does not appear on the Admiralty Chart of the Red Sea.

In calm, hazy weather the channel between Jebel Zukur and Abu Ail islands ought not to be used at night. In such weather the high land has a peculiarly distant appearance, and East point is so low, with white sand behind it, looking at night like water, that it is not seen from a vessel until she is on it, or at any rate too close to be safe. Great caution is therefore necessary when navigating in this vicinity.

By order of the Government of Bengal,
J. MENTEITH BREBNER,
Offg. Port Officer of Calcutta.

DISTRICT ROAD FUND.

NOTIFICATION No. 172.

The 4th May 1883.

THE following annual accounts and abstracts of the reports of the Road Cess Committees of the districts of 24-Pergunnahs, Nuddea, Jessore, and Moorshedabad, for the cess year 1881-82, together with the remarks thereon of the Commissioner of the Presidency Division are published for general information.

G. F. E. S. NEILL, *Major*, M.S.C.,
Under-Secy. to the Govt. of Bengal, P. W. Dept.

Abstract of a report by the Chairman of the District Road Cess Committee, 24-Pergunnahs, on the Committee's operations for the cess-year 1881-82.

THE people are now becoming accustomed to the cess, and to look upon it as a matter of course. Numerous applications from various localities were received praying for improvement of roads and communications.

There were three general and four special meetings held by the District Road Committee, in all of which there was a fair attendance of members. No meeting was held of the Branch Committee in this district during the year.

No money was allotted last year for the improvement of village roads in the district, as there were no funds available for the purpose consequent on the limited means at the disposal of the Committee.

The planting of fruit-trees has been extended to several roads during the year, and the trees which were planted in the previous years are thriving well.

The state of the roads was fair on the whole. The Committee are doing all they can with the limited funds at their disposal to keep the roads in passable condition, and to improve their state.

The several establishments under the Road Committee are reported to have worked well.

ALIPORE,
The 6th December 1882.

C. C. STEVENS,
Chairman, Road Cess Committee, 24-Pergunnahs.

Abstract of a report by the Chairman of the District Road Cess Committee, Nuddea, on the Committee's operations for the cess-year 1881-82.

THE cess is not very popular in this district, specially with the lower order of people, who cannot much appreciate the benefits conferred by it.

There were two meetings held during the year by each of the Branch Committees of Meherpore, Chooadangah, and Kooshtea, and three meetings by the Bongong Branch Committee; and the members evinced a fair amount of interest in their work.

The outlay on the construction and maintenance of village roads in the year was much larger than in many previous years. The village people took much interest in this work, especially in the Sudder and Chooadangah sub-divisions, where the grants in many cases were supplemented by private subscriptions and donations. The total length of village roads constructed during the year in the several sub divisions was 165¼ miles.

The year was not favourable for arboriculture owing to insufficient rains. There were four nurseries at four different places, and the total number of young trees planted in them during the year was 5,189. From these nurseries 1,760 young plants were transplanted on the sides of various roads, and most of them have thrived well.

All existing roads in the district were repaired during the year, and they are in a fair state of working order.

The different establishments under the Road Committee have worked satisfactorily.

RAM CHUNDER MULLICK,

Vice-Chairman.

Abstract of a report by the Chairman of the District Road Committee, Jessore, on the Committee's operations for the cess-year 1881-82.

THE cess was levied at the maximum rates during the year. The District Committee held six meetings, at all of which there was a quorum. With very few exceptions the non-official members took but little interest in the administration of the funds at their disposal. The percentage of attendance of members of both the District and Branch Committees during the year under report is an improvement on that of the last year.

The sum of Rs. 17,278 was expended in constructing and repairing village roads, which were actively supervised by the Sub-divisional Officers, who displayed great interest in the welfare of their respective sub-divisions.

Four thousand one hundred fruit-trees have been planted out on the roads in the Sudder and Jhenidah sub-divisions, and nurseries kept up.

Surface repairs have been executed on all the roads in the district, and metal has been renewed on the six principal roads, and there has been 1¾ miles of new construction during the year.

The different establishments under the Road Committee have worked satisfactorily.

Abstract of a report by the Chairman of the District Road Cess Committee, Moorshedabad, on the Committee's operations for the cess-year 1881-82.

IT is believed that the people generally realize the benefits the cess tax confers on them. During the year the cess was levied at the maximum rate. The zemindars generally paid the cess punctually, but the instalments due from some of the estates under the Court of Wards were not so regularly realized. The percentage of collection was 95·85, exclusive of the arrears of the year.

All the members of the Sudder Committee did not shew the same amount of interest in their work. Those members who live in and about the sudder station attented the meetings regularly, while those living at a distance seldom attended. The names of two members had to be removed for not attending six consecutive meetings. No difficulty, however, was experienced in procuring a quorum at any of the meetings.

All the Branch Committees in the district, except the Choa Branch Committee, were very regular in submitting their accounts. The Choa Committee was not only irregular in this respect, but the members of it took very little interest in their duties. The other two Branch Committees appear to have worked well.

The village roads in the Sudder and Lalbagh sub-divisions, and also under the several Branch Committees, were repaired during the year.

The trees planted on roadsides during the previous year were properly maintained, and fresh mango trees were planted along nearly 17 miles of roads during the year under report.

All the roads in the district, metalled and unmetalled, were kept in good repair throughout the year.

The several establishments under the Road Committee have worked satisfactorily.

A. RATTRAY,
Vice-Chairman.

No. 18PR, dated Alipore, the 5th March 1883.

From—J. WARE EDGAR, Esq., C.S.I., Offg. Commissioner of the Presidency Division,
To—The Secretary to the Government of Bengal, Public Works Department.

I HAVE the honour to submit the annual accounts of income and expenditure of the road funds in the several districts of this division for the past cess year ending the 30th September 1882, together with copies of the administration reports received from the Chairman of the different Road Cess Committees as noted in the margin.

Chairman, Road Cess Committee, 24-Pergunnahs, No. 67R, dated 10th January 1883.
Ditto ditto, Nuddea, No. 133RF, dated 23rd December 1882.
Ditto ditto, Jessore, No. 70R, dated 30th January 1883.
Ditto ditto, Moorshedabad, No. 60, dated 25th November 1882.

2. The total income of the several districts in this division, including the balance of the last year, amounted to Rs. 5,37,948 in the year under notice against Rs 4,74,035 in the previous year. The increase is attributable to the grant sanctioned by Government in aid of the funds at the disposal of the Road Cess Committees of the 24-Pergunnahs and Nuddea.

3. The estimated and actual expenditure for the year 1881-82, and the actuals for the two preceding years, are given below—

	Estimated expenditure for 1881-82.	Actuals, 1881-82.	Actuals, 1880-81.	Actuals, 1879-80.
	Rs.	Rs	Rs.	Rs.
Original work	91,845	80,819	47,572	54,899
Repairs	2,73,676	2,66,463	2,66,126	2,48,543
Establishment	91,298	86,286	93,222	86,982
Total ...	4,56,819	4,33,568	4,06,920	3,90,424

4. The expenditure under the head "Original works," though shewing an improvement as compared with the actuals of the preceding years, was but small, it amounting to only 18·6 per cent. of the total amount spent. This is owing to insufficiency of funds generally in all the districts of this division, especially in the 24-Pergunnahs, where the funds are not even sufficient to maintain the existing roads. The result is that no important works were executed in the several districts of this division during the year except the feeder road from Khooksha railway station to Khooksha bazar in Nuddea, which cost Rs. 15,883.

5. The repairs to the existing roads absorbed a large portion of the road fund, the expenditure on this account amounting to 60 per cent. of the total expenditure.

6. It will be observed that there has been a decrease of Rs. 6,936 in the expenditure on account of establishment as compared with the preceding year. This is attributable to the fact that in the previous year large establishment was entertained in all the districts of this division for the work of valuation and revaluation of estates and tenures, whereas in the year under notice a very small amount was expended under that head.

7. The grants made by the several District Committees during the year for the improvement of village roads were as follows:—Nuddea Rs. 15,376, Jessore Rs. 17,278, and Moorshedabad Rs. 10,800. It is noteworthy that no such grant was made by the Road Cess Committee of the 24-Pergunnahs.

8. The reports shew that considerable progress has been made in tree-planting in all the districts.

9. The several establishments employed under the Committees are reported to have worked to their satisfaction.

3. An order made by the Local Government authorising the construction of any tramways in any municipality or area may be obtained by—

By whom orders authorizing the construction of tramways may be obtained.

1*st*.—The local authority of such municipality or area.

2*nd*.—Any person, persons, corporation or company with the consent of such local authority.

And any such local authority, person, persons, corporation or company shall be deemed to be "promoters" of a tramway, and are in this Act referred to as "the promoters."

When applications for authority to construct tramways may be made.

Where the local authority consists of a body of persons, Board or Committee, no application shall be made to the Local Government for the purpose of authorising the construction of tramways in a municipality or area until a resolution, approving of the intention to make such application, shall be passed at a special meeting of the members constituting the local authority in such municipality or area.

Such special meeting shall not be held unless a month's previous notice of the same and of the purpose thereof has been given in the manner in which notices of meetings of such local authority are usually given, and such notice shall require that all objections to the proposed tramways shall be submitted for the consideration of the local authority before the date fixed for the special meeting.

Such resolution shall not be passed unless two-thirds of the members constituting such local authority are present and vote at such special meeting and a majority of those present and voting concur in the resolution.

Documents to be forwarded with application.

4. At the time of making an application for such order, the promoters shall also forward to the Local Government—

5*th*.—All necessary maps, plans, sections, and drawings of the proposed work.

5. The Local Government shall consider the application and may, if it think fit, direct an enquiry as to the propriety of proceeding upon such application, and it shall consider any objection thereto that may be filed on or before such day as it may from time to time appoint.

Local Government may make and publish order.

Where it appears to the Local Government expedient and proper that the application should be granted with or without addition or modification, or subject or not to any restriction or condition, the Local Government may settle and make an order accordingly, and such order shall be published in the *Calcutta Gazette*.

Form and contents of order.

Every such order shall empower the promoters therein specified to make the tramway upon the gauge and in manner therein described, and shall contain such provisions, fix such maximum rates of fare, and prescribe such penalties for default as (subject to the provisions of this Act) the Local Government according to the nature of the application and the facts and circumstances of each case thinks fit.

Where the promoters are not the local authority, the order shall set forth the agreement made between the promoters and the local authority, and one of the provisions of such agreement shall settle the manner in which the value of the tramway shall be calculated in the event of its purchase by the local authority under sections thirty-nine, forty or forty-one.

Power to revoke, amend or vary order.

6. The Local Government on the application of any promoters empowered by an order to construct a tramway may from time to time revoke, amend or vary such order by a further order:

7. Subject to, and in accordance with, the provisions of this Act, the Local Government may, on a joint application, or on two or more separate applications, settle and make an order empowering two or more local authorities, respectively, jointly to construct the whole, or separately to construct parts, of a tramway, and jointly or separately to own the whole or parts thereof; and all the provisions of this Act, which relate to the construction of tramways, shall extend and apply to the construction of the whole, and the separate parts of such tramway as last aforesaid; and the form of the order may be adapted according to the circumstances of the case.

Local Government may in certain cases dispense with consent of local authority.

8. Where it is proposed to lay down a tramway in two or more areas, and any local authority having jurisdiction in any of such areas does not consent thereto, the Local Government may nevertheless make an order authorising the construction of such tramway if it is satisfied after enquiry that two-thirds of the length of such tramway is proposed to be laid in an area or areas, the local authority of which area or areas does consent thereto.

Promoters' powers to cease at expiration of prescribed time.

9. If the promoters empowered by any order under this Act to make a tramway do not, within the period prescribed in such order, complete the tramway and open it for public traffic; or,

if the works are not substantially commenced within the latest date prescribed in such order for their commencement; or,

if the works, having been commenced, are suspended without a reason sufficient, in the opinion of the Local Government, to warrant such suspension;

the powers given by the order to the promoters for constructing such tramway, executing such works, or otherwise in relation thereto, shall cease to be exercised to the extent and in the manner specified in such order.

A notice inserted by the Local Government in the *Calcutta Gazette* to the effect that a tramway has not been completed and opened for public traffic, or that the works have not been substantially commenced, or that they have been suspended without sufficient reason, shall be conclusive evidence for the purposes of this section of such non-completion, non-commencement or suspension.

2nd.—They shall not open or break up or alter the level of any such road, except under the superintendence and to the reasonable satisfaction of the local authority, for which superintendence the promoters shall pay all reasonable expenses, unless the local authority neglect to give such superintendence at the time specified in the notice, or discontinue the same during the work.

Promoters not to obstruct ordinary traffic.

18. Nothing in this Act, or in any bye-law made under this Act, shall take away or abridge the right of the public to pass along or across every or any part of any road along or across which any tramway is laid, whether on or off the tramway, with carriages not having flange wheels or wheels suitable to run on rails. 37. Nothing in this Act shall limit the powers of the local authority or the police to regulate the passage of any traffic along or across any road along or across which any tramways are laid down, and such local authority or police may exercise their authority as well on as off the tramway, and with respect as well to the traffic of the promoters as to the traffic of other persons.

The local authority shall not be liable to pay to the promoters any compensation for loss of traffic occasioned by the reasonable exercise of such authority.

Reservation of power over roads.

38. Nothing in this Act shall be construed to prevent the local authority or any corporate body or persons in the exercise of the powers conferred upon them under any law for the time being in force from opening breaking up, widening, altering, diverting or improving any of the roads, bridges, drains or culverts

(1) that they shall cause as little detriment or inconvenience to the promoters as circumstances admit;

(2) that they may (if absolutely necessary, but not otherwise) order the temporary stoppage of traffic on the tramways or any of them on giving twenty-four hours' previous notice in writing to the promoters;

(3) that before they commence any work, whereby the traffic on the tramway will be interrupted, they shall (except in cases of urgency, in which cases no notice shall be necessary) give to the promoters notice of their intention to commence such work, specifying the time at which they will begin to do so; such notice to be given eighteen hours at least before the commencement of the work;

Such cost to be certified by such engineer or officer, whose certificate shall be final and conclusive. And if the promoters fail to pay the amount so certified within one calendar month after delivery to them of such certificate or a copy thereof, such engineer or officer may, without any previous notice to the promoters (but without prejudice to any other remedy which he may have for the recovery of the amount) sell and dispose of the materials of the tramway or part of the tramway removed, either by public auction or private sale, and for such sum or sums and to such person or persons as such engineer or officer may think fit; and may out of the proceeds of such sale make and reimburse himself the amount of cost certified as aforesaid and of the costs of sale, and the balance (if any) of the proceeds of the sale shall be paid over by the said engineer or officer to the promoters.

Inability of Promoters.

Proceedings in case of inability of promoters.

40. If at any time after the opening of any tramway it appears to the local authority, or to the Magistrate of the district in which such tramway is situate, that the promoters of such tramway are insolvents, or that they are unable to maintain such tramway, or work the same with advantage to the public, the Local Government, upon a representation to that effect made by such Magistrate or local authority, may direct an enquiry by a referee into the truth of the representation, and if the referee shall find that the promoters are such insolvents, or that they are unable to maintain such tramway or work the same with advantage to the public, the Local Government may, by order, declare that the powers of the promoters shall, at the expiration of six calendar months from the making of the order, be at an end, and the powers of the promoters shall cease and determine at the expiration of the said period unless the same are purchased by the local authority in manner by this Act provided, and thereupon the engineer or other officer appointed on that behalf by the Local Government may remove the tramway in like manner, and subject to the same provisions as to the payment of the costs of such removal, and to the same remedy for the recovery of such costs in every respect as in cases of removal under the last preceding section.

Purchase of Tramways.

Local authority to have right of purchasing tramway after 21 years.

41. The local authority shall have the right of purchasing the tramway, with the plant, buildings, stores, rolling-stock, and everything connected therewith, upon the expiration of twenty-one years from the date of the order of the Local Government authorising the construction of such tramway, upon declaring its intention so to do in writing not less than six months before the expiration of the said twenty-one years, and shall have a renewed right of purchase at the end of every seven years after the expiration of the said twenty-one years upon similar notice being given, and the value to be placed upon the tramway shall be calculated in a manner to be settled in the agreement entered into between the promoters and the said local authority and set forth in the order of the Local Government:

Provided that the promoters and the local authority may, with the consent of the Local Government, provide in the said agreement for the sale and purchase of the tramway on the expiration of any shorter periods than those hereinbefore specified.

EXAMINATION OF CANDIDATES FOR APPOINTMENT TO THE SUBORDINATE EXECUTIVE SERVICE.

APPOINTMENT DEPARTMENT.

Darjeeling, the 30th April 1883

RESOLUTION.

READ—

Resolution of this Government, dated the 23rd February 1883, prescribing the conditions upon which appointments will in future be made to the Subordinate Executive Service in these Provinces.

In paragraph 6 of the Resolution cited above, it is stated that the examination to be held in 1884 will be restricted (1) to those candidates for employment in the Subordinate Executive Service whose names are now entered in the Government list of candidates eligible for employment as Deputy Magistrates and Deputy Collectors who may not have been provided with appointments during the current year (1883), and (2) to officers in the first and second grades of Sub-Deputy Collectors. The examination of 1884 will thus differ in character to some extent from the examinations which will be held in 1885 and subsequent years, inasmuch as it will not be an open competition, but will be limited to certain individuals who may be thought to have some claim upon the consideration of Government. Under those circumstances, it will not be possible, at this examination, to enforce the test of the Entrance Examination of the Calcutta University, which candidates in future years will be required to have passed before they are permitted to compete. But in order to ensure that the candidates at the examination of 1884 are possessed of a fairly good English education, the test to be applied should, in the Lieutenant-Governor's opinion, be a somewhat strict one.

2. Full particulars regarding the examinations to be held in 1885 and subsequent years will hereafter be published. Meteorological Reporter to the Government of Bengal.

METEOROLOGICAL OFFICE, BENGAL,
The 7th May 1883.

SUMMARY.

THE past week has been one of considerable atmospheric disturbance. Frequent showers, in many cases accompanying thunder-storms, have occurred in nearly every district of the province except in Behar and Chutia Nagpore. Showers giving more or less general rain fell in South, West and East Bengal, and also in Orissa, during the last three days of the month of April. No rain is reported for this period from North Bengal and Behar On the 1st of May thunder storms and showers were less frequent in South, West and East Bengal, but the stormy weather extended on that day to Northern Bengal, and the north-western districts of North Behar On the 2nd, Eastern Bengal and the 24-Pergunnahs and Hooghly districts experienced a series of thunder-showers giving general rain.

The weather again became more unsettled during the next two days, and rain fell at nearly all the reporting stations in Orissa and Bengal. A few showers also occurred in North Behar.

The following are the heaviest daily rainfalls recorded during this period:—

Dinagepore	...	...	...	4·59	inches on the 3rd.
Kurigram	...	...	...	3·86	„ „
Pubna	...	...	...	3·59	„ „
Kooshtea	...	...	...	3·58	„ „

The week thus ended with unsettled weather and general rain over the province. The barometer was falling rather rapidly. This tended to produce an area of unusually low pressure in Bengal and Behar. The southerly winds from the Bay and the hot winds were consequently increasing in force. The weather conditions hence continue to be very abnormal, and to present greater and sharper contrasts than usual.

The following table shows the character and distribution of the rainfall for the past week, and also since the 1st of April:—

Divisions.	Normal average rainfall, 28th April to 4th May.	Average rainfall, 28th April to 4th May 1883.	Normal rainfall, 1st April to 4th May.	Average rainfall, 1st April to 4th May 1883.	Percentage of actual to normal rainfall of period 1st April to 4th May 1883.
Orissa	0·41	1·03	1·96	1 73	88
South-West Bengal ...	0·97	1·98	2·80	4·07	145
East Bengal	1·69	3·28	4·73	8·06	170
North Bengal	1 37	1·95	3·34	6·17	185
North Behar	0·64	0·24	1·25	3 15	252
South Behar	0 32	0 08	0·72	0 24	33
Chutia Nagpore	0·24	0·08	0·75	0 38	50

The table shows that rain in excess of the average amount for this week has fallen in Orissa, South-West Bengal, East Bengal, and North Bengal. Double the average amount has fallen in the first three of the divisions. The rainfall in Behar and Chutia Nagpore for the week was on the other hand in defect. The normal rainfall in these divisions is in April always very small, and the present unusually dry and hot weather is the continuation of the atmospheric conditions which have characterized the whole of the past month.

The general distribution of the rainfall of the past month is as follows:—

Rain from 45 to 150 per cent. in excess of the average has fallen over those parts of the province more directly under the influence of the southerly sea winds from the Bay, that is Bengal and North Behar, whereas South Behar, Chutia Nagpore and Orissa, all more or less under the influence of the hot dry westerly winds of Upper India, have received much less than the normal amount. The deficiency being least in Orissa and greatest in South Behar.

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of past years (at the Park-street Observatory). The barometer is about 3 feet higher at Alipore, and, other things being equal, reads therefore ·003 lower. The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 0·2° lower; and finally, the thermometer, which has furnished the record of temperature at the Surveyor-General's Office during the last 20 years and upwards, is found to read 0·6 higher than the Kew standard thermometer, which is the standard of reference at the present Observatory.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The direction of the movement of the wind are taken from the trace of a Beckley's anemograph

The mouth of the rain-gauge is one foot above the ground.

In the two previous weekly reports the symbol for strong wind should be /, instead of /.

The 11th May 1883.—Mr. W. G. Olpherts is appointed to be a Commissioner of the Municipality of Howrah.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 14th May 1883.—It is hereby notified for general information that, under the provisions of section II of Act VII (B.C.) of 1864, the Lieutenant-Governor intends to approve the undermentioned revised Rules (Section V of the Salt Manual) regarding the crediting of fines and disbursement of rewards:—

1. All fines and penalties levied by magisterial officers from offenders against the salt law and the rules published by the Government are to be credited under the head Law and Justice in accordance with the orders of the Government of India, Financial Department, No. 2189, dated 11th August 1879.

2. The Board attach great importance to the prompt payment of all rewards to informers and seizing officers in salt cases. Rewards should therefore be immediately paid from the treasury or sub-treasury, as the case may be, and debited to the Salt Department. The delay which must often occur in realizing the fines and penalties imposed, and before the sanction of the Board can be accorded under section 39 of Act VII (B.C.) of 1864 to the sale of confiscated salt, will thus be obviated.

3. When salt is confiscated, the police should be directed to take charge of the same until the expiration of three months from the date of the final order, when application should be made to the Board for sanction to the sale, and to the credit of the proceeds to the head "Law and Justice." Any small quantities, however, of confiscated salt, less than ten maunds in weight, should be sold at once, as it is liable to loss by wastage. As in the case of fines, the proceeds of such sales should be immediately credited to the head "Law and Justice."

4. Confiscated salt should not be sold for less than the duty; and if the place of sale is within rowannah limits, purchasers should be directed to apply to the Collector for the necessary protective documents in order to enable them to remove the salt if in excess of five seers. In the event of no offer being made sufficiently high to cover the Government duty, the salt, if not exceeding one maund, should be destroyed; if a larger quantity, the Board's orders should be applied for.

5. Except with the special sanction of the Board, the rewards adjudged in salt cases will not exceed the amount of fine imposed, *plus* the value of the salt confiscated in each case. This value will ordinarily be the price for which the confiscated salt is sold. Should the sale, however, be postponed (under rule 3 above), or the salt destroyed (under rule 4), the value will be estimated by the officer adjudging the reward at a price not exceeding the rate of Government duty.

6. Provided, however, that—

(1) no larger amount than Rs. 100 may be disbursed in any one case before the expiration of the period of appeal, except with the special sanction of the Board; and

(2) in cases in which the fine imposed is not realized, no larger amount than Rs. 100 may be disbursed on account of such fine without the special sanction of the Board.

7. Subject to the restrictions contained in the two preceding rules, Commissioners are authorized to sanction rewards up to the full amount of fine and the value of the salt confiscated in each case; and district officers are authorized to sanction rewards not exceeding Rs. 20 in each case. When a larger reward than Rs. 20 is deemed expedient, district officers should report the case for the orders of the Commissioner.

8. Magistrates trying cases of illegal manufacture, possession, or transport of salt, under sections 5 and 16 to 19 of Act VII (B.C.) of 1864, are authorized to grant rewards not exceeding the amount of the fine imposed, *plus* the estimated value of any seizure made, and not exceeding Rs. 20 in any one case, to any person or persons who may have contributed to the conviction of the offender. The amount of such reward will not be disbursed from the fine when collected, or from the sale proceeds, but should be at once paid from the sudder or sub-divisional treasury, as the case may be, on an order signed by the Magistrate trying the case. The fine and sale proceeds, when realized (in whole or part), will be credited in the treasury in the usual manner. Magistrates granting rewards under this rule should be careful to see that the order for payment is made over in each case to the payee, with directions to present it for encashment at the treasury before he leaves the court.

9. The above rule applies only to the payment of rewards to private persons and to excise officers, and not to the payment of rewards to police officers. Rewards to police officers should be adjudged in the usual manner by the Collector, and should be disbursed to the District Superintendent of Police for distribution on monthly bills prepared by that officer, as is done in the case of payment of excise rewards. All police officers up to, and inclusive of, the grade of Inspectors may participate in the reward.

10. District officers should request all magisterial officers within their districts to send for their perusal all the papers of cases connected with offences against the salt laws *immediately* such cases are disposed of, together with any recommendations such officers may have to offer as to the payment of any special rewards which may appear to them to be deserved.

11. No time should be lost by the district officer in perusing the record and in passing such orders as the case may appear to require. Should he consider that the case deserves a reward which it is not within his competency to grant, an immediate reference should be made to the Commissioner for sanction.

12. District officers should show, in the appropriate columns of their half-yearly returns, the sums disbursed during the half-year as rewards, and the sums credited in the treasury on account of fines and forfeitures during the same period.

13. From the papers before them, and the information supplied by magisterial officers, Collectors are required to draw up and keep a register in the form given below. Immediately on receipt of the papers alluded to in rule 10, the first ten columns, or as many of them as possible, should be filled in, and it will be the duty of the district officer to see that no cause for any delay in the payment of rewards is allowed to exist:—

Register of Salt Prosecutions.

Serial number.	Number and date of case.	Section under which tried.	Date of Magistrate's order, and of final order, if appealed.	Quantity of salt confiscated.	Amount of fine imposed.	Price realized by sale of salt.	Amount of fine realized.	Amount paid in rewards by the Magistrate's order.	Date of payment of reward in column 9.	Special or additional reward paid by Revenue officers.	Date of payment of reward in column 11.	REMARKS.

Exhibition of permanent Red Light.

THE Port Officer of Madras has given notice that, in order to facilitate anchorage at night, a *red* light is permanently exhibited from the yard-arm of the flagstaff in the port of Beypore, about eight miles to the southward of Calicut.

This light is visible between the bearings of S. by W. (through East) to N. W. ½ W., and should be seen in clear weather from a distance of six miles.

Approaching Beypore by night a vessel should haul in between the bearings of E. by N. ½ N. and N. E. by E., which will lead clear into an anchorage of from 4½ to 6 fathoms.

The illuminating apparatus is a globular lantern.

RED SEA.

Shoal ground off Jebel Zukur.

INFORMATION has been received from the Agent of the Liverpool Salvage Association at Aden, communicated through the Political Resident, Aden, dated the 8th February 1883, of the existence of a sunken rock (near where the *Gulf of Finland* struck on the 18th October 1882) lying off Jebel Zukur island.

The rock, with a least depth of 15 feet over it, lies two cables E. N. E. from the East point of Jebel Zukur. It is outside the *Gulf of Finland's* present position, and does not appear on the Admiralty Chart of the Red Sea.

In calm, hazy weather the channel between Jebel Zukur and Abu Ail islands ought not to be used at night. In such weather the high land has a peculiarly distant appearance, and East point is so low, with white sand behind it, looking at night like water, that it is not seen from a vessel until she is on it, or at any rate too close to be safe. Great caution is therefore necessary when navigating in this vicinity.

J. MENTEITH BREBNER,
Offg. Port Officer of Calcutta.

NOTIFICATION.

The 23rd April 1883.—It is hereby notified, for the information of merchants and officers interested in the trade between False Point and other ports, that a telephone line has been laid and is in working order between False Point Light-house and Hookeytollah, the latter point being in telegraphic communication with Calcutta, and that a signaller has been appointed at the light-house to communicate with ships in the offing.

Ships can be signalled from the light-house, in ordinary weather, at a distance of five miles; in very clear weather, six miles; and in hazy weather, not more than three or four miles.

Owing to the sands lying off the Mahanuddy, ships cannot at any season approach False Point Light safely within four miles, or in the monsoon five miles.

The transmission of telephonic messages between False Point and Hookeytollah will be charged at the ordinary rate for inland telegraphic messages, besides Re. 1 for each message for the use of flags

THE following Act, passed by the Lieutenant-Governor of Bengal in Council, received the assent of His Honor on the 26th March 1883, and having received the assent of His Excellency the Governor-General on the 25th April 1883, is hereby published for general information :—

ACT No. III OF 1883.

An Act to authorize the making and to regulate the working of tramways in Bengal.

WHEREAS it is expedient to facilitate the construction and to regulate the working of tramways within the territories subject to the Government of the Lieutenant-Governor of Bengal :

Preamble.

It is enacted as follows :—

PART I.

Orders by the Local Government authorizing the construction of Tramways.

3. An order made by the Local Government authorising the construction of any tramways in any municipality or area may be obtained by—

By whom orders authorizing the construction of tramways may be obtained.

1*st*.—The local authority of such municipality or area.

2*nd*.—Any person, persons, corporation or company with the consent of such local authority.

And any such local authority, person, persons, corporation or company shall be deemed to be "promoters" of a tramway, and are in this Act referred to as "the promoters."

When applications for authority to construct tramways may be made.

Where the local authority consists of a body of persons, Board or Committee, no application shall be made to the Local Government for the purpose of authorising the construction of tramways in a municipality or area until a resolution, approving of the intention to make such application, shall be passed at a special meeting of the members constituting the local authority in such municipality or area.

Such special meeting shall not be held unless a month's previous notice of the same and of the purpose thereof has been given in the manner in which notices of meetings of such local authority are usually given, and such notice shall require that all objections to the proposed tramways shall be submitted for the consideration of the local authority before the date fixed for the special meeting.

Such resolution shall not be passed unless two-thirds of the members constituting such local authority are present and vote at such special meeting and a majority of those present and voting concur in the resolution.

Documents to be forwarded with application.

4. At the time of making an application for such order, the promoters shall also forward to the Local Government—

1*st*.—A memorial signed by the promoters descriptive of the undertaking.

2*nd*.—A copy of the proceedings and resolution of the special meeting held under the provisions of section three.

3*rd*.—A copy of the provisional agreement made between the promoters and local authority, where the promoters are not themselves the local authority.

4*th*.—An estimate of the proposed works, signed by the persons making the same.

5*th*.—All necessary maps, plans, sections, and drawings of the proposed work.

Local Government to determine on application and objection.

5. The Local Government shall consider the application and may, if it think fit, direct an enquiry as to the propriety of proceeding upon such application, and it shall consider any objection thereto that may be filed on or before such day as it may from time to time appoint.

Local Government may make and publish order.

Where it appears to the Local Government expedient and proper that the application should be granted with or without addition or modification, or subject or not to any restriction or condition, the Local Government may settle and make an order accordingly, and such order shall be published in the *Calcutta Gazette*.

Form and contents of order.

Every such order shall empower the promoters therein specified to make the tramway upon the gauge and in manner therein described, and shall contain such provisions, fix such maximum rates of fare, and prescribe such penalties for default as (subject to the provisions of this Act) the Local Government according to the nature of the application and the facts and circumstances of each case thinks fit.

Where the promoters are not the local authority, the order shall set forth the agreement made between the promoters and the local authority, and one of the provisions of such agreement shall settle the manner in which the value of the tramway shall be calculated in the event of its purchase by the local authority under sections thirty-nine, forty or forty-one.

Power to revoke, amend or vary order.

6. The Local Government on the application of any promoters empowered by an order to construct a tramway may from time to time revoke, amend or vary such order by a further order:

Provided that whenever the promoters are not the local authority, the Local Government shall, before passing such order, call upon the local authority to state any objection it may have to such application.

Power to authorise joint work.

7. Subject to, and in accordance with, the provisions of this Act, the Local Government may, on a joint application, or on two or more separate applications, settle and make an order empowering two or more local authorities, respectively, jointly to construct the whole, or separately to construct parts, of a tramway, and jointly or separately to own the whole or parts thereof; and all the provisions of this Act, which relate to the construction of tramways, shall extend and apply to the construction of the whole, and the separate parts of such tramway as last aforesaid; and the form of the order may be adapted according to the circumstances of the case.

Local Government may in certain cases dispense with consent of local authority.

8. Where it is proposed to lay down a tramway in two or more areas, and any local authority having jurisdiction in any of such areas does not consent thereto, the Local Government may nevertheless make an order authorising the construction of such tramway if it is satisfied after enquiry that two-thirds of the length of such tramway is proposed to be laid in an area or areas, the local authority of which area or areas does consent thereto.

Promoters' powers to cease at expiration of prescribed time.

9. If the promoters empowered by any order under this Act to make a tramway do not, within the period prescribed in such order, complete the tramway and open it for public traffic; or,

if the works are not substantially commenced within the latest date prescribed in such order for their commencement; or,

if the works, having been commenced, are suspended without a reason sufficient, in the opinion of the Local Government, to warrant such suspension;

the powers given by the order to the promoters for constructing such tramway, executing such works, or otherwise in relation thereto, shall cease to be exercised to the extent and in the manner specified in such order.

A notice inserted by the Local Government in the *Calcutta Gazette* to the effect that a tramway has not been completed and opened for public traffic, or that the works have not been substantially commenced, or that they have been suspended without sufficient reason, shall be conclusive evidence for the purposes of this section of such non-completion, non-commencement or suspension.

Payment of expenses when local authority are promoters.

10. When the local authority of any area are the promoters of any tramway, the expenses incurred by them in constructing and working such tramway under the provisions of this Act, including the expenses preparatory thereto, may be paid out of the funds under the control of such local authority.

Rent for use of road when local authority are not promoters.

11. When the local authority are not the promoters, they may fix and demand from the promoters such rent for the use of roads as may be agreed upon.

Application of rent or tolls.

12. Any moneys received by any local authority by way of rent or tolls in respect of any tramway constructed and worked under the provisions of this Act may be applied by them to the purposes for which other funds under the control of such local authority may be applied.

Power to make rules.

13. The Local Government may from time to time make, and when made, may revise, modify, annul, add to, or confirm any rules it may be expedient to make for the purpose of carrying this Act into execution.

PART II.

Construction of Tramways.

Form in which tramways are to be constructed and maintained.

14. Every tramway shall be constructed and maintained on such gauge and in such manner as may be specified in the order of the Local Government empowering the construction of such tramway, and before the work of construction is begun, the maps, drawings, and specification shewing the proposed construction of such tramway shall be submitted to the local authority and be approved by it, and the cars and carriages intended to run on the tramways shall also be of such construction and furnished with such brakes and other appliances as shall have been approved by such local authority.

Power to break up streets.

15. The promoters may from time to time, for the purpose of constructing and maintaining any tramways under this Act, open and break up the soil and pavement of any of the roads upon which the construction and maintenance of such tramway has been authorized by the order of the Local Government in that behalf, and therein lay sleepers and rails, and repair, renew, alter or remove the same; and may, for the purposes aforesaid, do in and on such roads all other acts which shall from time to time be necessary for constructing and maintaining their tramways:

Provided that when the powers granted under this section shall be exercised by the promoters, who are not the local authority, such powers shall be exercised subject to the following regulations :—

1st.—They shall give to the local authority notice in writing of their intention to open or break up any such road, specifying the time at which they will begin to do so, and the portion of the road proposed to be opened or broken up. Such notice to be given at least seven days before the commencement of the work.

2nd.—They shall not open or break up or alter the level of any such road, except under the superintendence and to the reasonable satisfaction of the local authority, for which superintendence the promoters shall pay all reasonable expenses, unless the local authority neglect to give such superintendence at the time specified in the notice, or discontinue the same during the work.

3rd.—They shall not, without the consent of the local authority in writing, open or break up at any one time a greater length than a quarter of a mile in any one length and shall leave an interval of at least a quarter of a mile between any two such places at which they may open or break up such road.

4th.—They shall, with all convenient speed, and in all cases within two calendar months at the most, unless the local authority otherwise consent in writing, complete the work for which the said road shall be broken up, and fill in the ground, and make good the surface, and, to the reasonable satisfaction of the local authority, restore the road to as good a condition as that in which it was before it was opened or broken up, and clear away all surplus materials or rubbish occasioned thereby.

5th.—They shall in the meantime, when such road is opened or broken up, cause it to be fenced and watched, and to be properly lighted at night.

6th.—They shall make good all damage done to the gas and water-pipes, sewers, drains, culverts, bridges, and fences whether belonging to the local authority or to private individuals, by the disturbance thereof, and shall not cause any interruption in the supply of gas in or through any main or pipe, or the flow of water through any pipe, drain, culvert, bridge or other waterway; if they fail to make such damage good, or to remove such interruption within reasonable time, the local authority may, without prejudice to the penalties payable under section twenty-nine, cause the same to to made good at the promoters' expense.

Promoters to keep the tramway roads in proper repair.

16. The promoters shall, at their own expense at all times, maintain and keep in good condition and repair, in such manner as the local authority shall direct, the rails of which any of their tramways shall for the time being consist, and so much of any road as lies between the rails of any tramway; and in the case of double lines or turnouts or sidings, the portion of the road between the tramways, and in every case so much of the road as extends eighteen inches beyond the rails of and on each side of any such tramway; and in the course of carrying out repairs, it shall not be necessary to give notice thereof to the local authority.

Promoters not to obstruct ordinary traffic.

17. In exercising the powers given to them by the last two preceding sections, the promoters shall arrange their work so as to afford the least possible obstruction to the ordinary traffic of the roads or to the ordinary means of approach to houses situated on either side of the roads, and so as to admit of as free and unrestricted entry at all times into the sewers, drains, culverts, and bridges for the time being in use, as is possible under the circumstances, and also so as to enable proper repairs to be made to water or gas pipes by the direction of the local authority.

Reservation of right of public to use roads.

18. Nothing in this Act, or in any bye-law made under this Act, shall take away or abridge the right of the public to pass along or across every or any part of any road along or across which any tramway is laid, whether on or off the tramway, with carriages not having flange wheels or wheels suitable to run on rails. But the right of the public shall not include the use of any new roadway, embankment or earthwork constructed or acquired for the special and exclusive use of the tramway.

Right of user only.

19. Notwithstanding anything in this Act contained the promoters shall not acquire, or be deemed to acquire, any right other than that of user of any road along or across which they lay any tramway.

PART III.

No tramway to be opened without certificate from Engineer.

20. No tramway shall be opened for public traffic until the same has been inspected and certified by an Engineer or other officer, appointed in that behalf by the Local Government, to be fit for such traffic.

Local authority may lease or take tolls.

21. When a tramway has been completed under the provisions of this Act and certified to be fit to be opened for public traffic under the last preceding section, the local authority or other promoters may, subject to the provisions of this Act, place and run carriages on such tramway and demand and take tolls and charges in respect of the use of such carriages; or may, by lease, to be approved of by the Local Government, demise to any person, persons, corporation or company the right of user by such person, persons, corporation or company of the tramway, and of demanding and taking in respect of the same the tolls and charges authorised; or such authority may leave such tramway open to the public, and may in respect of such user demand and take the tolls and charges authorised.

22. The cars and carriages of the promoters on the lines of the tramways shall be worked with such power, animal, mechanical or otherwise, as may be specified in the order issued by the Local Government under section five.

Promoters may use tramway carriages with flange wheels.

23. The promoters may use on their tramways carriages with flange wheels or wheels suitable for running on the prescribed form of rail, and, subject to the provisions of this Act, they shall have the exclusive use of their tramways for carriages with flange wheels, or other wheels suitable for the said form of rail.

Promoters may fix and demand fares.

24. The promoters shall have power from time to time to fix the rates of fares for carrying passengers and goods in the said cars or carriages, and may demand and take the same for every passenger travelling upon any of their tramways, or for the carriage of goods by their tramways:

Provided that the rate of fare for each person or parcel shall not exceed the maximum rates authorized in the order of the Local Government issued under section five.

Printed list of fares, &c., to be placed in carriages.

25. A printed list in English and the vernacular of the district of all the fares and charges fixed under the authority of the last preceding section and a printed copy in the same languages of all bye-laws in force as hereinafter mentioned, shall be exhibited in a conspicuous place inside each of the cars or carriages used by the promoters upon any of their tramways.

Fares how to be paid.

The fares and charges fixed as aforesaid shall be paid to such persons at such places, upon or near to the tramways, and in such manner and under such regulations as the promoters may, by notice to be annexed to the list of fares, from time to time appoint.

26. The members constituting the local authority in a municipality or area in special general meeting may, subject to confirmation thereof by the Local Government, from time to time make such bye-laws as to the rate of speed, number of passengers, and mode of use of the tramways as the convenience and safety of the public may require, and as are not inconsistent with this Act or any rules framed under section thirteen.

The promoters may make certain bye-laws.

27. The promoters may, subject to confirmation as aforesaid, from time to time make such bye-laws—

for preventing disturbances, or the entry of persons suffering from infectious diseases, or the commission of any nuisance in or upon any carriage, or in or against any premises belonging to them; and

for regulating the travelling in or upon any carriage belonging to them:

Provided that such bye-laws are not inconsistent with this Act or with any rules or bye-laws framed under sections thirteen and twenty-six.

Publication of bye-laws.

28. All rules and bye-laws made under sections thirteen, twenty-six, and twenty-seven, and confirmed by the Local Government, shall, when so confirmed, be published in the *Calcutta Gazette*, and such rules and bye-laws when so published shall, until repealed or altered, be of the same effect as if they had been inserted in this Act:

Provided that no rules and bye-laws shall be confirmed by the Local Government until they shall have been published for at least one month previously in the *Calcutta Gazette* and in one or more of the local newspapers (if any exist) which circulate in the district to which such rules and bye-laws relate.

PART IV.

Offences.

Penalty for failure of promoters to comply with provisions of this Act.

29. If the promoters, not being the local authority, fail in any respect to comply with the provisions of sections fourteen, fifteen, sixteen, seventeen twenty, and twenty-two of this Act, they shall for every such offence (without prejudice to the enforcement of specific performance of the requirements of this Act, or to any other remedy against them), upon complaint of any person injuriously affected thereby, be liable to a penalty not exceeding two hundred rupees, and to a further penalty not exceeding fifty rupees for each day during which any such failure continues after the first day on which such penalty is incurred.

36. The promoters shall be answerable for all accidents, damages, and injuries happening through their act or default, or through the act or default of any person in their employment by reason or in consequence of any of their works or carriages, and in all cases where the promoters are not the local authority they shall save harmless the local authorities and their respective officers and servants from all damages and costs in respect of such accidents, damages, and injuries.

Power for the local authority or police to regulate traffic on roads.

37. Nothing in this Act shall limit the powers of the local authority or the police to regulate the passage of any traffic along or across any road along or across which any tramways are laid down, and such local authority or police may exercise their authority as well on as off the tramway, and with respect as well to the traffic of the promoters as to the traffic of other persons.

The local authority shall not be liable to pay to the promoters any compensation for loss of traffic occasioned by the reasonable exercise of such authority.

Reservation of power over roads.

38. Nothing in this Act shall be construed to prevent the local authority or any corporate body or persons in the exercise of the powers conferred upon them under any law for the time being in force from opening breaking up, widening, altering, diverting or improving any of the roads, bridges, drains or culverts

traversed by the tramways for the purposes for which they may now lawfully open, break up, widen, alter, divert or improve the same: Provided—

(1) that they shall cause as little detriment or inconvenience to the promoters as circumstances admit;

(2) that they may (if absolutely necessary, but not otherwise) order the temporary stoppage of traffic on the tramways or any of them on giving twenty-four hours' previous notice in writing to the promoters;

(3) that before they commence any work, whereby the traffic on the tramway will be interrupted, they shall (except in cases of urgency, in which cases no notice shall be necessary) give to the promoters notice of their intention to commence such work, specifying the time at which they will begin to do so; such notice to be given eighteen hours at least before the commencement of the work;

(4) that in the event of their so interfering with or stopping the running of any tramway under this section, an abatement proportioned to the length of road over which and time during which running is stopped, shall be made from the rent (if any) reserved and payable by the promoters;

(5) that any alteration of the position of any of the tramways, or the making good of any injury or damage that may be occasioned thereto by reason of such widening, alteration or improvement, shall be executed by the promoters at the expense of the local authority.

Discontinuance of Tramways.

Tramways to be removed in certain cases.

39. If at any time after the opening of any tramway for traffic, the promoters discontinue the working of such tramway or of any part thereof for the space of three calendar months (such discontinuance not being occasioned by circumstances beyond the control of such promoters, for which purpose the want of sufficient funds shall not be considered a circumstance beyond their control), and such discontinuance is proved to the satisfaction of the Local Government, the Local Government, if it think fit, may by order declare that the powers of the promoters in respect of such tramway or the part thereof so discontinued, shall from the date of such order be at an end, and thereupon the said powers of the promoters shall cease, and determine unless the same are purchased by the local authority in manner by this Act provided. Where such order has been made the engineer or other officer appointed on that behalf by the Local Government may, at any time after the expiration of two months from the date of such order, remove the tramway or part of the tramway so discontinued, and the promoters shall pay to such engineer or officer the cost of such removal and of the making good of the road by such engineer or officer. Such cost to be certified by such engineer or officer, whose certificate shall be final and conclusive. And if the promoters fail to pay the amount so certified within one calendar month after delivery to them of such certificate or a copy thereof, such engineer or officer may, without any previous notice to the promoters (but without prejudice to any other remedy which he may have for the recovery of the amount) sell and dispose of the materials of the tramway or part of the tramway removed, either by public auction or private sale, and for such sum or sums and to such person or persons as such engineer or officer may think fit; and may out of the proceeds of such sale make and reimburse himself the amount of cost certified as aforesaid and of the costs of sale, and the balance (if any) of the proceeds of the sale shall be paid over by the said engineer or officer to the promoters.

Inability of Promoters.

Proceedings in case of inability of promoters.

40. If at any time after the opening of any tramway it appears to the local authority, or to the Magistrate of the district in which such tramway is situate, that the promoters of such tramway are insolvents, or that they are unable to maintain such tramway, or work the same with advantage to the public, the Local Government, upon a representation to that effect made by such Magistrate or local authority, may direct an enquiry by a referee into the truth of the representation, and if the referee shall find that the promoters are such insolvents, or that they are unable to maintain such tramway or work the same with advantage to the public, the Local Government may, by order, declare that the powers of the promoters shall, at the expiration of six calendar months from the making of the order, be at an end, and the powers of the promoters shall cease and determine at the expiration of the said period unless the same are purchased by the local authority in manner by this Act provided, and thereupon the engineer or other officer appointed on that behalf by the Local Government may remove the tramway in like manner, and subject to the same provisions as to the payment of the costs of such removal, and to the same remedy for the recovery of such costs in every respect as in cases of removal under the last preceding section.

Purchase of Tramways.

Local authority to have right of purchasing tramway after 21 years.

41. The local authority shall have the right of purchasing the tramway, with the plant, buildings, stores, rolling stock, and everything connected therewith, upon the expiration of twenty-one years from the date of the order of the Local Government authorising the construction of such tramway, upon declaring its intention so to do in writing not less than six months before the expiration of the said twenty-one years, and shall have a renewed right of purchase at the end of every seven years after the expiration of the said twenty-one years upon similar notice being given, and the value to be placed upon the tramway shall be calculated in a manner to be settled in the agreement entered into between the promoters and the said local authority and set forth in the order of the Local Government:

Provided that the promoters and the local authority may, with the consent of the Local Government, provide in the said agreement for the sale and purchase of the tramway on the expiration of any shorter periods than those hereinbefore specified.

Amendment of proviso to section 152, Act V of 1881. V of 1881.

STATEMENT OF OBJECTS AND REASONS.

ARTICLE 12, Schedule I, of the Court-fees Act, VII of 1870, provides, among other matters, for the levy of a fee of two per cent. on the amount or value of the property in respect of which a certificate is granted under Act XXVII of 1860. The following note is appended to the article:—

"The person to whom any such certificate is granted, or his representative, shall, after the expiration of twelve months from the date of such certificate, and thereafter whenever the Court granting such certificate requires him so to do, file a statement on oath of all monies recovered or realized by him under such certificate.

"If the monies so recovered or realized exceed the amount of debts or other property as sworn to by the person to whom the certificate is granted, the Court may cancel the same, and order such person to take out a fresh certificate, and pay the fee prescribed by this schedule for such excess.

"In default of filing such statement within the time allowed, the Court may cancel the certificate."

2. In the course of the discussions in the Legislative Council which preceded the passing of the Probate and Administration Act, V of 1881, a proposal was made by Mr. Pitt Kennedy that Act XXVII of 1860 and the Court-fees Act should be amended so as to require, from any one obtaining a certificate under the former Act for the recovery of any portion of the estate of a deceased person, payment of a court-fee at the rate of two per cent. on the entire value of the estate.

3. A circular was thereupon addressed to Local Governments calling for opinions on this proposal.

The replies received show that the weight of authority is altogether against its adoption; but many of them call attention to the fact, already more than once brought to the notice of the Government of India, that the requirements of the note in the Court-fees Act above referred to are as a rule neglected or evaded; that persons taking out certificates do not file the statements required by it, that the Courts have no proper means of compelling them to do so, and that large amounts of debts are thus collected under certificates obtained for trifling sums.

4. Various suggestions have been made for enforcing compliance with the provisions of the note; but it appears to the Government of India that there are objections to any device for securing the fee which involves the imposition on the person obtaining the certificate of a duty to be performed after he has obtained the certificate.

The great mass of the people who take out certificates are so indolent or careless or unintelligent, that there is little hope of getting them to comply with the provisions of such a law; and the consequence is that, if it is not allowed to remain a dead-letter, as the present law has been, public officers will be constantly compelled to inflict penalties on large numbers of persons, many of whom have been guilty of no deliberate wrong.

5. The simple plan, as it seems to the Government of India, is that already adopted without any warrant of law by some of the officers consulted, namely, to require each applicant for a certificate to file with his application a schedule of the debts in respect of which the certificate is required, and to amend Act XXVII of 1860, so as to make the certificate good only for the debts entered in the schedule, at the same time allowing the certificate-holder, if he afterwards finds that he needs a certificate for other debts, to obtain an extension of the certificate on paying the additional duty, and (if the Court requires him to do so) giving additional security.

6. The only objection that has been taken to this arrangement is that taken by the Calcutta High Court in their Registrar's letter No. 54, dated 10th January, 1880, printed in paper No. 20 to the Court-fees Bill. They fear that "improper use" might be made of the schedule "by fraudulent debtors whose debts were not in the knowledge of the applicant at the time [he filed the schedule], or in some way prejudice might arise."

Now, there is little doubt that a fraudulent debtor would take the point referred to, and that he would thereby put the certificate-holder to the trouble of explaining his omission to enter the debt in his original schedule; but there would be no great hardship in this, and there would, on the other hand, be a certain compensating advantage, inasmuch as (as observed in one of the replies to the circular) the fear of this would stimulate applicants for certificates to be careful in compiling their schedules.

7. Assuming that the law is to be amended in the manner proposed, a further question arises as to what debts the applicant for a certificate should be bound to include in his application. Should he be bound to include—

(*a*) all debts known to him to be outstanding, including those which could be realised equally well without a certificate; or

(*b*) only those debts which he chooses to include, because he believes he cannot realise them without a certificate?

The former, it is believed, would be more in accordance with the views of those who framed the existing law; but it appears to the Governor General in Council that it would be sufficient to adopt the second mode of valuation and allow the applicant to take out a certificate in respect of such debts only as he thinks fit. No doubt a larger revenue might be obtained by insisting on the other mode of valuation; but it is apprehended, having regard to the class of people who take out these certificates, that any system requiring the applicant to give a complete list of debts would, if it was to be thoroughly enforced, necessitate proceedings of an inquisitorial nature, for which no sufficient machinery exists, and which it would not be worth while to undertake for the sake of the additional revenue to be obtained.

8. The rule which it is now proposed to lay down, while it dispenses with all proceedings of an inquisitorial or penal nature, may reasonably be expected to lead to some increase of the revenue under this head, inasmuch as, the certificate being expressly limited in its operation to the debts specified in it, the necessity of including in it all debts except those due from persons standing in some peculiarly friendly or confidential relation will be brought home to the applicants, and debtors will probably become alive to the risk they run in paying a debt which is omitted from it.

The additional revenue realized will not, as just observed, be as large as if the alternative mode of valuation were adopted, but this is a result which, for the reason already stated, the Government is prepared to accept.

9. The present Bill has been prepared for the purpose of carrying out the above views. The effect of it, if it becomes law, will be that every applicant for a certificate under Act XXVII of 1860 will be required to state in his application the debts in respect of which he desires the certificate. It will be in his option to include what debts he pleases. He will pay duty only in respect of the debts which he elects to include, and the operation of the certificate will be limited to those debts. If he subsequently desires to include other debts, he can have the certificate extended to them on paying the additional duty. The note appended to article 12 of the schedule to the Court-fees Act will not apply to him. For the rest, the amendments made by the Bill in Act XXVII of 1860 and in the Probate and Administration Act, 1881, are of an unimportant nature, and merely such as are necessitated by the above alterations in the substance of the law.

JOHN ELIOT,
Meteorological Reporter to the Government of Bengal.

RAINFALL SUMMARY FOR THE MONTH OF APRIL 1883.

THE atmospheric conditions of India during the month of April are generally simple and strongly marked. Temperature increases rapidly in Northern India, and the seat of maximum temperature is transferred northwards during the month from the Deccan to the Central Provinces and the adjacent districts of Central India, Chutia Nagpore and Behar. Moderately strong, dry, hot winds blow down the Gangetic plain and across the Hazaribagh plateau seawards, whilst cooler easterly winds blow down the Assam valley, and equally strong sea-winds blow across the Bengal coast, carrying up moderate supplies of moisture into the interior of Bengal. The combination of southerly winds in South Bengal, easterly winds in North Bengal, and north-westerly winds in Chutia Nagpore, gives rise to a generally cyclonic circulation of the air over the province. The strong southerly winds at the head of the Bay diminish in intensity southwards, and are only felt as light breezes below 17° or 18° North latitude during the month of April.

The southerly winds at the head of the Bay have a strong westerly element and are hence mainly directed towards Eastern Bengal, whence they recurve into North Bengal and North Behar. They give light moderate rain during the month to the greater part of Bengal and North Behar.

The general effect of this convergence of three air currents differing so widely in character (one of which brings up moderate supplies of vapour) is to give rise to occasional periods of disturbance, during which local thunder-storms of varying intensity occur over either a part or the whole of the province.

It is almost certain that, whilst the rainfall is due to the southerly current from the Bay, the peculiar conditions under which it falls, viz. during nor-westers, thunder-storms, &c, is mainly due to the intermingling of the currents which converge to Bengal at this time.

The average distribution of the rainfall in Bengal for the month of April is simple. The lines of equal rainfall run mainly north and south, or parallel to the hills on the borders of Eastern and Northern Bengal.

To the east of a line running through Julpigori, Rungpore, Serajgunge, Burrisal and Chittagong, the rainfall varies from four to six inches. The rainfall diminishes westwards and to the west of a curved line running through Bettiah, Durbhunga, Doomka, Hazaribagh and the Cuttack Hills. The average rainfall for the month of April is less than one inch, and is least in Shahabad, where it is barely one-fifth of an inch.

The rainfall of the past month has been clearly dependent on the meteorological conditions of the month in the province. The westerly land winds which blow across South Behar, Chutia Nagpore into Orissa have been stronger and drier than usual. Hence over the whole of this area the rainfall has been considerably below the averages, the deficiency being greatest in South Behar and least in Orissa.

On the other hand, over nearly the whole of Bengal and in North Behar, to which the influence of the sea-winds (which have also been of greater intensity than the average) extends, the rainfall has been above the average. The excess has been greatest in the districts bordering on the Assam and Tipperah Hills, viz. in Cooch Behar, East Rungpore, Mymensing, Kishoregunge and Tipperah. A second area of heavy rainfall during the past month includes a narrow strip stretching from Raneegunge to Calcutta and Baraset, which has been visited by a series of nor-westers, strongest in the neighbourhood of Raneegunge. There has been, on the other hand, a local deficiency of rainfall in the Moorshedabad, Maldah, and South Bhagulpore districts.

The following table gives the averages for the month in the seven meteorological areas into which the province may be divided :—

Divisions.	Average rainfall of the month of April 1883.	Normal average rainfall of April	Percentage of actual to normal.
Orissa	1·13	1 82	62
South-West Bengal	2·76	2·21	125
East Bengal	5·30	4·05	131
North Bengal	4·00	2·85	147
North Behar	0·95	0·80	119
South Behar	0·15	0·47	32
Chutia Nagpore	0·30	0·58	52

A glance at the rainfall table of the month will show that by far the greater part occurred during the following periods of disturbance—

First period from the 2nd to the 3rd, during which local showers fell in South, West and in East Bengal.

Second period from the 13th to the 15th, when moderately heavy showers occurred in the Cooch Behar, Julpigori and the Rungpore districts;

Third period from the 17th to the end of the month.

During the first four days of this period showers were confined almost entirely to the eastern district. On the 21st the disturbance extended to North and South-West Bengal and Orissa, and on the 25th to North Behar. Moderate heavy showers fell over all these districts (excepting Orissa) until the 27th, when they ceased in North Bengal and Behar. Lighter showers continued to occur in Eastern and South-Western Bengal until the end of the month.

METEOROLOGICAL OFFICE, BENGAL,
The 14th May 1883.

JOHN ELIOT,
Meteorological Reporter to the Government of Bengal.

RAINFALL SUMMARY FOR THE WEEK ENDING 11TH MAY 1883.

THE meteorological conditions of the past week over the greater part of India have been very abnormal. Over the interior the atmosphere is at present excessively hot and dry. Over the whole of Upper and Central India, temperature is 5° to 10° above the average. Unusually strong, dry, hot winds have prevailed over the Gangetic plain during the past week; the character of the weather in Behar, West Bengal and Orissa is shewn by the following table:—

	Temperature.		Humidity.	
	Average of week.	Above or below mean of week.	Average of week.	Above or below mean of week.
Patna	88·9°	4·2° above	55	6 above.
Gya	89 6°	3·0° „	26	21 below.
Hazaribagh	92·1°	13·6° „	14	24 „
Burdwan	88·4°	4·8° „	64	2 „
Cuttack	93·2°	3·3° „	52	7 „

Hence over the whole of South Behar, Chutia Nagpore, the western districts of South-West Bengal and Orissa the temperature is excessive, and the air abnormally dry. These failures are most strongly exhibited at Hazaribagh, over which the hot winds from Upper India cross in full intensity.

The conditions in Bengal Proper are partly shewn by the following table:—

	Temperature.		Humidity.	
	Average of week.	Above or below mean of week.	Average of week.	Above or below mean of week.
Purneah	83°	1 above	73	6 above
Dacca	83°	1° „	81	6 „
Calcutta	85°	2° „	75	6 „
Chittagong	80	2 below	76	3 „

Thus in the whole of Bengal Proper temperature and humidity are both above the average; unusually strong steady sea-winds have prevailed during the week. These winds have been strictly correlated to, and connected with, the hot dry winds of the Gangetic plain. They have brought up from the head of the Bay larger supplies of moisture than usual, and, as might have been expected in the case of strong winds, they have deposited their vapour chiefly in the neighbourhood of the hills of Eastern and Northern Bengal. The following table shows the distribution of rainfall throughout the province during the first eleven days of the month, and also since the 1st of April:—

Divisions.	Normal rainfall, 1st to 11th May.	Average rainfall, 1st to 11th May 1883.	Percentage of actual to normal.	Normal rainfall, 1st April to 11th May 1883.	Average rainfall, 1st April to 11th May 1883.	Percentage of actual to normal.

East Bengal	2·85	4 01	103	6·90	10·11	146

South Behar	0·70	0·15	21	1·17	0·30	25
Chutia Nagpore	0·06	0·00	0	1·54	1·80	26

Little or no rain has fallen during the week in Orissa, the western districts of South-West Bengal, Chutia Nagpore and Behar. Frequent showers have occurred in East and North Bengal, the 6th and 10th being days of fairly general rainfall. Local showers also fell in the eastern districts of South-West Bengal, more specially on the 10th.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The direction of the movement of the wind are taken from the trace of a Beckley's anemograph

The mouth of the rain-gauge is one foot above the ground.

In the weekly report from 22nd to 28th April 1883, the total rainfall of the seven days should be 1·91 inches instead of 2·91 inches.

2. The Board attach great importance to the prompt payment of all rewards to informers and seizing officers in salt cases. Rewards should therefore be immediately paid from the treasury or sub-treasury, as the case may be, and debited to the Salt Department. The delay which must often occur in realizing the fines and penalties imposed, and before the sanction of the Board can be accorded under section 39 of Act VII (B.C.) of 1864 to the sale of confiscated salt, will thus be obviated.

3. When salt is confiscated, the police should be directed to take charge of the same until the expiration of three months from the date of the final order, when application should be made to the Board for sanction to the sale, and to the credit of the proceeds to the head "Law and Justice." Any small quantities, however, of confiscated salt, less than ten maunds in weight, should be sold at once, as it is liable to loss by wastage. As in the case of fines, the proceeds of such sales should be immediately credited to the head "Law and Justice."

4. Confiscated salt should not be sold for less than the duty; and if the place of sale is within rowannah limits, purchasers should be directed to apply to the Collector for the necessary protective documents in order to enable them to remove the salt if in excess of five seers. In the event of no offer being made sufficiently high to cover the Government duty, the salt, if not exceeding one maund, should be destroyed; if a larger quantity, the Board's orders should be applied for.

5. Except with the special sanction of the Board, the rewards adjudged in salt cases will not exceed the amount of fine imposed, *plus* the value of the salt confiscated in each case This value will ordinarily be the price for which the confiscated salt is sold. Should the sale, however, be postponed (under rule 3 above), or the salt destroyed (under rule 4), the value will be estimated by the officer adjudging the reward at a price not exceeding the rate of Government duty.

6. Provided, however, that—

(1) no larger amount than Rs. 100 may be disbursed in any one case before the expiration of the period of appeal, except with the special sanction of the Board; and

(2) in cases in which the fine imposed is not realized, no larger amount than Rs. 100 may be disbursed on account of such fine without the special sanction of the Board.

7. Subject to the restrictions contained in the two preceding rules, Commissioners are authorized to sanction rewards up to the full amount of fine and the value of the salt confiscated in each case; and district officers are authorized to sanction rewards not exceeding Rs. 20 in each case. When a larger reward than Rs. 20 is deemed expedient, district officers should report the case for the orders of the Commissioner.

8. Magistrates trying cases of illegal manufacture, possession, or transport of salt, under sections 5 and 16 to 19 of Act VII (B.C.) of 1864, are authorized to grant rewards not exceeding the amount of the fine imposed, *plus* the estimated value of any seizure made, and not exceeding Rs. 20 in any one case, to any person or persons who may have contributed to the conviction of the offender. The amount of such reward will not be disbursed from the fine when collected, or from the sale proceeds, but should be at once paid from the sudder or sub-divisional treasury, as the case may be, on an order signed by the Magistrate trying the case. The fine and sale proceeds, when realized (in whole or part), will be credited in the treasury in the usual manner. Magistrates granting rewards under this rule should be careful to see that the order for payment is made over in each case to the payee, with directions to present it for encashment at the treasury before he leaves the court.

9. The above rule applies only to the payment of rewards to private persons and to excise officers, and not to the payment of rewards to police officers. Rewards to police officers should be adjudged in the usual manner by the Collector, and should be disbursed to the District Superintendent of Police for distribution on monthly bills prepared by that officer, as is done in the case of payment of excise rewards. All police officers up to, and inclusive of, the grade of Inspectors may participate in the reward.

10. District officers should request all magisterial officers within their districts to send for their perusal all the papers of cases connected with offences against the salt laws *immediately* such cases are disposed of, together with any recommendations such officers may have to offer as to the payment of any special rewards which may appear to them to be deserved.

11. No time should be lost by the district officer in perusing the record and in passing such orders as the case may appear to require. Should he consider that the case deserves a reward which it is not within his competency to grant, an immediate reference should be made to the Commissioner for sanction.

12. District officers should show, in the appropriate columns of their half-yearly returns, the sums disbursed during the half-year as rewards, and the sums credited in the treasury on account of fines and forfeitures during the same period.

13. From the papers before them, and the information supplied by magisterial officers, Collectors are required to draw up and keep a register in the form given below. Immediately on receipt of the papers alluded to in rule 10, the first ten columns, or as many of them as possible, should be filled in, and it will be the duty of the district officer to see that no cause for any delay in the payment of rewards is allowed to exist:—

Register of Salt Prosecutions.

Serial number.	Number and date of case.	Section under which tried.	Date of Magistrate's order, and of final order, if appealed.	Quantity of salt confiscated.	Amount of fine imposed.	Price realized by sale of salt.	Amount of fine realized.	Amount paid in rewards by the Magistrate's order.	Date of payment of reward in column 9.	Special or additional reward paid by Revenue officers.	Date of payment of reward in column 11.	REMARKS.

Exhibition of permanent Red Light.

THE Port Officer of Madras has given notice that, in order to facilitate anchorage at night, a *red* light is permanently exhibited from the yard-arm of the flagstaff in the port of Beypore, about eight miles to the southward of Calicut.

This light is visible between the bearings of S. by W. (through East) to N. W. ¼ W., and should be seen in clear weather from a distance of six miles.

Approaching Beypore by night a vessel should haul in between the bearings of E. by N. ¼ N. and N. E. by E., which will lead clear into an anchorage of from 4½ to 6 fathoms.

The illuminating apparatus is a globular lantern.

RED SEA.

Shoal ground off Jebel Zukur.

INFORMATION has been received from the Agent of the Liverpool Salvage Association at Aden, communicated through the Political Resident, Aden, dated the 8th February 1883, of the existence of a sunken rock (near where the *Gulf of Finland* struck on the 18th October 1882) lying off Jebel Zukur island.

The rock, with a least depth of 15 feet over it, lies two cables E. N. E. from the East point of Jebel Zukur. It is outside the *Gulf of Finland's* present position, and does not appear on the Admiralty Chart of the Red Sea.

In calm, hazy weather the channel between Jebel Zukur and Abu Ail islands ought not to be used at night. In such weather the high land has a peculiarly distant appearance, and East point is so low, with white sand behind it, looking at night like water, that it is not seen from a vessel until she is on it, or at any rate too close to be safe. Great caution is therefore necessary when navigating in this vicinity.

By order of the Government of Bengal,

J. MENTEITH BREBNER,
Offg. Port Officer of Calcutta.

Such fee shall be determined by the Commissioners in accordance with a scale to be fixed from time to time by the Local Government after consulting the Commissioners at a special meeting, and shall be paid in such instalments as the Commissioners may direct.

The Local Government may at its discretion fix such scale of fees either —

GOVERNMENT OF INDIA.

No. 9 OF 1883.

A Bill to amend the law relating to certificates granted under Act XXVII of 1860 (An Act for facilitating the collection of debts on successions, and for the security of parties paying debts to the representatives of deceased persons).

Amendment of proviso to section 152, Act V of 1881.

V of 1881.

STATEMENT OF OBJECTS AND REASONS.

ARTICLE 12, Schedule I, of the Court-fees Act, VII of 1870, provides, among other matters, for the levy of a fee of two per cent. on the amount or value of the property in respect of which a certificate is granted under Act XXVII of 1860. The following note is appended to the article:—

"The person to whom any such certificate is granted, or his representative, shall, after the expiration of twelve months from the date of such certificate, and thereafter whenever the Court granting such certificate requires him so to do, file a statement on oath of all monies recovered or realized by him under such certificate.

"If the monies so recovered or realized exceed the amount of debts or other property as sworn to by the person to whom the certificate is granted, the Court may cancel the same, and order such person to take out a fresh certificate, and pay the fee prescribed by this schedule for such excess.

"In default of filing such statement within the time allowed, the Court may cancel the certificate."

2. In the course of the discussions in the Legislative Council which preceded the passing of the Probate and Administration Act, V of 1881, a proposal was made by Mr. Pitt Kennedy that Act XXVII of 1860 and the Court-fees Act should be amended so as to require, from any one obtaining a certificate under the former Act for the recovery of any portion of the estate of a deceased person, payment of a court-fee at the rate of two per cent. on the entire value of the estate.

3. A circular was thereupon addressed to Local Governments calling for opinions on this proposal.

The replies received show that the weight of authority is altogether against its adoption; but many of them call attention to the fact, already more than once brought to the notice of the Government of India, that the requirements of the note in the Court-fees Act above referred to are as a rule neglected or evaded; that persons taking out certificates do not file the statements required by it, that the Courts have no proper means of compelling them to do so, and that large amounts of debts are thus collected under certificates obtained for trifling sums.

4. Various suggestions have been made for enforcing compliance with the provisions of the note; but it appears to the Government of India that there are objections to any device for securing the fee which involves the imposition on the person obtaining the certificate of a duty to be performed after he has obtained the certificate.

The great mass of the people who take out certificates are so indolent or careless or unintelligent, that there is little hope of getting them to comply with the provisions of such a law; and the consequence is that, if it is not allowed to remain a dead-letter, as the present law has been, public officers will be constantly compelled to inflict penalties on large numbers of persons, many of whom have been guilty of no deliberate wrong.

5. The simple plan, as it seems to the Government of India, is that already adopted without any warrant of law by some of the officers consulted, namely, to require each applicant for a certificate to file with his application a schedule of the debts in respect of which the certificate is required, and to amend Act XXVII of 1860, so as to make the certificate good only for the debts entered in the schedule, at the same time allowing the certificate-holder, if he afterwards finds that he needs a certificate for other debts, to obtain an extension of the certificate on paying the additional duty, and (if the Court requires him to do so) giving additional security.

6. The only objection that has been taken to this arrangement is that taken by the Calcutta High Court in their Registrar's letter No. 54, dated 10th January, 1880, printed in paper No. 20 to the Court-fees Bill. They fear that "improper use" might be made of the schedule "by fraudulent debtors whose debts were not in the knowledge of the applicant at the time [he filed the schedule], or in some way prejudice might arise."

Now, there is little doubt that a fraudulent debtor would take the point referred to, and that he would thereby put the certificate-holder to the trouble of explaining his omission to enter the debt in his original schedule; but there would be no great hardship in this, and there would, on the other hand, be a certain compensating advantage, inasmuch as (as observed in one of the replies to the circular) the fear of this would stimulate applicants for certificates to be careful in compiling their schedules.

7. Assuming that the law is to be amended in the manner proposed, a further question arises as to what debts the applicant for a certificate should be bound to include in his application. Should he be bound to include—

(*a*) all debts known to him to be outstanding, including those which could be realised equally well without a certificate; or

(*b*) only those debts which he chooses to include, because he believes he cannot realise them without a certificate?

The former, it is believed, would be more in accordance with the views of those who framed the existing law; but it appears to the Governor General in Council that it would be sufficient to adopt the second mode of valuation and allow the applicant to take out a certificate in respect of such debts only as he thinks fit. No doubt, a larger revenue might be obtained by insisting on the other mode of valuation; but it is apprehended, having regard to the class of people who take out these certificates, that any system requiring the applicant to give a complete list of debts would, if it was to be thoroughly enforced, necessitate proceedings of an inquisitorial nature for which no sufficient machinery exists and which it would not be worth while to undertake for the sake of the additional revenue to be obtained.

8. The rule which it is now proposed to lay down, while it dispenses with all proceedings of an inquisitorial or penal nature, may reasonably be expected to lead to some increase of the revenue under this head, inasmuch as, the certificate being expressly limited in its operation to the debts specified in it, the necessity of including in it all debts except those due from persons standing in some peculiarly friendly or confidential relation will be brought home to the applicants, and debtors will probably become alive to the risk they run in paying a debt which is omitted from it.

The additional revenue realized will not, as just observed, be as large as if the alternative mode of valuation were adopted, but this is a result which, for the reason already stated, the Government is prepared to accept.

9. The present Bill has been prepared for the purpose of carrying out the above views. The effect of it, if it becomes law, will be that every applicant for a certificate under Act XXVII of 1860 will be required to state in his application the debts in respect of which he desires the certificate. It will be in his option to include what debts he pleases. He will pay duty only in respect of the debts which he elects to include, and the operation of the certificate will be limited to those debts. If he subsequently desires to include other debts, he can have the certificate extended to them on paying the additional duty. The note appended to article 12 of the schedule to the Court-fees Act will not apply to him. For the rest, the amendments made by the Bill in Act XXVII of 1860 and in the Probate and Administration Act, 1881, are of an unimportant nature, and merely such as are necessitated by the above alterations in the substance of the law.

RESOLUTION ON THE ADMINISTRATION REPORT OF THE ALIPORE REFORMATORY SCHOOL FOR THE YEAR 1882.

JAILS.

Darjeeling, the 17th May 1883.

RESOLUTION.

READ—

Letter No. 3207, dated the 13th April 1883, from the Inspector-General of Jails, forwarding with his remarks the Reports of the Committee and the Superintendent of the Reformatory School at Alipore for the year 1882.

Read also—

The Reports for 1881, and the orders of Government recorded thereon.

On the opening of the Reformatory School at Hazareebagh for boys from Behar in September last, 25 boys were transferred to that institution from the school at Alipore, and to this cause is almost entirely attributable the decrease in the number of boys from 106 on the 1st January to 79 on the 31st December 1882. The total number of boys received, including those in the school at the commencement of the year, was 122. Of these 13 were released on the expiration of their sentences, 25 were transferred as stated above, 2 escaped, 1 died, and 2 were released on attaining the age of 18, beyond which boys cannot be retained in the institution.

2. The discipline of the boys was satisfactory, and their conduct generally good. There was a slight increase in the average number of punishments per boy, the average being 4·7 as compared with 3·5 in 1881. The average is, however, very good when compared with the averages of 1880 and 1879, which were 6·7 and 11·8 respectively. Under the mark system, by which each boy can, by good work, earn one anna per week, Rs. 82-11-6 were earned;

and Rs. 71-3-0, earned by boys who were released, were withdrawn from the Alipore Savings Bank. A further sum of Rs. 62-8 0 was earned by boys for extra work. The Superintendent reports that he finds that it is a great stimulus to active and deserving boys to be allowed to do extra work.

3. The year is reported to have been on the whole a healthy one, though the average number in hospital rose from 2·44 in 1881 to 2 9 during 1882. It is said, however, that with two exceptions the cases were trivial. An enlarged spleen was the cause of the single death that occurred during the year.

4. With a daily average of 94·5 inmates, the total expenditure in 1882 was Rs. 12,563-3-3, as compared with Rs. 12,452-5 9 in 1881, in which year the daily average number of inmates was 102·32. The expenditure per head rose from Rs. 122-1-1 in 1881 to Rs 132-3 6 during the past year. The increase was due, it is stated, to the following causes:—(1) The smaller number of boys; (2) the morning meal being given during the whole of the year, while in 1881 it was given during five months only; (3) the increment of the Superintendent's salary; (4) the larger amount paid to the trade instructors; and (5) the higher prices of articles of diet.

5. No change was made in the trades on which the boys were employed. The value of the goods manufactured amounted to Rs. 13,151 as compared with Rs. 8,517 in 1881. The net profits from the garden from the sale of vegetables not required for the inmates were Rs 325 as compared with Rs. 421 in 1881. The decrease here is stated to be due partly to the badness of the season, partly to the bigger and stronger boys who were available in 1881 being replaced on release by smaller and weaker ones, and partly to the time of all the boys being much occupied in the different trades practised in the Reformatory.

6. The report of the progress made in these trades by the boys is satisfactory. The workmanship of those employed on carpentry is highly commended, while the tin goods commanded a ready sale, and are, it is said, considered equal to imported goods. In blacksmith's work, canework, and book-binding good progress was also made. The principal aim of the Reformatory should be to qualify boys to gain their livelihood afterwards by honest trade, and the industries and discipline of the workshop afford the best security against future lapses into crime. The Superintendent's regret that many of the boys cannot be kept longer in the institution may be natural, but their enforced detention would clearly be against the law. If any boy wished to stay on of his own accord, the Lieutenant-Governor is not aware that there could be any objection to his doing so.

7. The reports received regarding the conduct of boys who had been released from the school were very satisfactory. Out of 28 boys reported on, only one boy was said to be living a dissolute life; the others were all doing well. The boy concerning whom a bad report was received was in the school less than two years, and for the greater part of this time he was in hospital. He clearly did not get the full benefits of regular training and discipline, and to the want of this his misconduct after release may be attributed.

8. The Lieutenant-Governor observes with pleasure the high terms in which the President of the Board of Management and the Inspector-General of Jails again speak of Mr. Kirschner, and the satisfactory state of the school justifies the commendation which he has received.

ORDER.—Ordered that a copy of this Resolution be forwarded to the President of the Board of Management for information, and for communication to the Members of the Board.

Ordered also that a copy of the Reports and a copy of the Resolution be forwarded to the Inspector-General of Jails for information.

Ordered also that a copy of the Resolution be published in the *Calcutta Gazette*.

By order of the Lieutenant-Governor of Bengal,

F. B. PEACOCK,

Secretary to the Government of Bengal.

METEOROLOGICAL OFFICE, BENGAL,
The 21st May 1883.

JOHN ELIOT,
Meteorological Reporter to the Government of Bengal.

RAINFALL SUMMARY FOR THE WEEK ENDING 19TH MAY 1883.

THE atmospheric conditions of the past week in Northern India were very similar to those of the week previous. The air has been excessively hot and dry over the whole of Upper and Central India. Pressure was in consequence reduced much below the average in Upper India. Moderately strong westerly winds prevailed over the Gangetic plain as far east as Allahabad, and were thence extended across the Chutia Nagpore plateau. The southerly sea winds at the head of the Bay continued to blow across Bengal with slightly diminished strength, and brought up much moisture and cloud. They were continued as easterly winds in North Bengal and Behar, and their extending influence in Behar was shewn by a diminution of temperature and increase of humidity during the past week.

The following statement gives roughly the variation of the temperature and humidity from the average in Orissa, West Bengal and Behar :—

Station	Temperature above or below average.	Humidity above or below average
Patna	4° below	5 above.
Gya	5·3° above	12 below.
Hazaribagh	0·2° „	18 „
Burdwan	·6° „	4 above.
Cuttack	1·5° „	5 below.

Temperature in the greater part of South Behar and in Chutia Nagpore thus continued much above the average for the season, and the humidity as markedly below it. In Orissa, West Bengal and North Behar the air was almost reduced to its normal conditions of temperature and humidity.

The following table gives similar information for North and East Bengal :—

Station	Temperature above or below.	Humidity above or below average.
Purneah	3·5° below	8 above
Dacca	·5° „	6 „
Chittagong	1·2° „	7 „

Hence over this portion of the Province the air was slightly cooler and moister than usual.

The sea winds have, as in the previous week, carried the aqueous vapour to the hills of Eastern and Northern Bengal, in the neighbourhood of which heavy rain, considerably in excess of the average for the week, has fallen. The Rungpore, Cooch Behar, Julpigori, Comilla, and Mymensingh districts, and the Chittagong Hill Tracts, have all had excessive rain during the past week. Frequent showers have also fallen in the remaining districts of North and East Bengal, and occasional showers in the Jessore, Nuddea, Moorshedabad, Burdwan and Beerbhoom districts of South-West Bengal, and in the adjacent districts of the Sonthal Pergunnahs and also in North Behar. On the other hand the week has been almost rainless in Orissa, South Behar, and over the central portions of South-West Bengal.

The following table gives the distribution of rainfall in the province during the past week and since the first of the month :—

Divisions.	Normal rainfall, 1st to 18th May.	Average rainfall, 1st to 18th May 1883.	Percentage of actual to normal.	Normal rainfall of week from May 12th to 18th.	Average rainfall of week from May 12th to 18th.	Percentage of actual to normal rainfall for last week

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The direction of the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

Under-Secy. to the Govt. of Bengal, P. W. Dept.

Report on the Fluctuations in Traffic on the Northern Bengal State Railway for the month of April 1883.

GENERAL REMARKS.

The principal increase during the month under review have been in Jute, Gunny, Railway material, Salt, and Tobacco The decreases have taken place in Ale, Food-grain, Piece-goods, Tea, and all other goods. The month's work has resulted in 4,43,956 maunds of traffic being lifted against 3,84,104 maunds for the same period last year, giving a net increase of 59,852 maunds, or 15·58 per cent.

INCREASES.

Ginger ... ... Mds. 5,653

This is a noteworthy increase in the face of the continued depression from which this traffic has suffered. It appears to be due to a demand recently sprung up for dyeing purposes. As this is the end of the ginger season, the present despatches are made up of dried ginger of last year's crop.

Gunny-bags ... ... Mds. 3,412

The market for this staple has been very quiet, and until the new jute season sets in no large despatches are anticipated.

Jute ... ... Mds. 22,306

The Calcutta market for both loose and baled jute has been very brisk, and business has in consequence been transacted though the season may fairly be considered at an end.

Railway material ... ... Mds. 42,957

Two-thirds of this increase is made up of coal for the Locomotive Department.

Salt ... ... Mds. 2,014

It is probable that despatchers are anxious to stock local depôts before the commencement of the rains.

Sugar ... ... Mds. 113

This increases though small, is encouraging in the face of the long and continued falling off in the despatches of this article.

Tobacco ... ... Mds. 15,456

These despatches consist almost entirely of Bispath and Pulu. The Calcutta market is firm for both descriptions.

DECREASES.

Ale ... ... Mds. 980

Comparison is made with very heavy despatches in April last year; considering the small demand, 778 maunds represents a very fair month's traffic.

Food-grains ... ... Mds. 3,534

In last month's Fluctuation Report the falling off under this head was fully commented on, and these remarks still hold good.

Piece-goods ... ... Mds. 2,454

An increase in this traffic is always expected before the rainy season fairly sets in to stock local markets.

Tea ... ... Mds. 3,018

In considering this decrease it must be remembered that last year the tea crop was an exceptionally early one, while the present season's outturn has been much retarded by dry and unfavourable weather. Despatches of the new crop have not yet come forward.

All other goods ... ... Mds. 22,073

This decrease is principally in upwards traffic. Last year during the same month very large quantities of machinery stores, &c., were received for the numerous tea-gardens in the hill districts, and a comparison with the present month's traffic is herefore hardly fair

4. No warehouse shall be used for the storing, keeping, pressing or depositing of jute or cotton, unless the owner or occupier thereof shall have previously obtained a license for such use.

Fee for license for warehouse.

5. From and after the commencement of this Act every license granted to a warehouse under the Jute-warehouse and Fire-brigade Act of 1872 or 1879 shall be subject to the payment of an annual fee. Such fee shall be determined by the Commissioners in accordance with a scale to be fixed from time to time by the Local Government after consulting the Commissioners at a special meeting, and shall be paid in such instalments as the Commissioners may direct.

The Local Government may at its discretion fix such scale of fees either—

(1) in proportion to the annual value of the warehouse as it is assessed to the payment of municipal taxes: or

(2) in proportion to the value of the machinery erected or proposed to be erected in such warehouse: or

Any balance of such twenty per centum which may remain after payment of such expenses shall be credited to the Municipal Fund of Calcutta, or of the Suburbs, or of Howrah, as the case may be, and any excess expenditure shall be defrayed by the Commissioners from the Municipal Fund.

Eighty per cent. to cost of fire-brigade.

V of 1881.

STATEMENT OF OBJECTS AND REASONS.

ARTICLE 12, Schedule I, of the Court-fees Act, VII of 1870, provides, among other matters, for the levy of a fee of two per cent. on the amount or value of the property in respect of which a certificate is granted under Act XXVII of 1860. The following note is appended to the article:—

"The person to whom any such certificate is granted, or his representative, shall, after the expiration of twelve months from the date of such certificate, and thereafter whenever the Court granting such certificate requires him so to do, file a statement on oath of all monies recovered or realized by him under such certificate.

"If the monies so recovered or realized exceed the amount of debts or other property as sworn to by the person to whom the certificate is granted, the Court may cancel the same, and order such person to take out a fresh certificate, and pay the fee prescribed by this schedule for such excess.

"In default of filing such statement within the time allowed, the Court may cancel the certificate."

2. In the course of the discussions in the Legislative Council which preceded the passing of the Probate and Administration Act, V of 1881, a proposal was made by Mr. Pitt Kennedy that Act XXVII of 1860 and the Court-fees Act should be amended so as to require, from any one obtaining a certificate under the former Act for the recovery of any portion of the estate of a deceased person, payment of a court-fee at the rate of two per cent. on the entire value of the estate.

3. A circular was thereupon addressed to Local Governments calling for opinions on this proposal.

The replies received show that the weight of authority is altogether against its adoption; but many of them call attention to the fact, already more than once brought to the notice of the Government of India, that the requirements of the note in the Court-fees Act above referred to are as a rule neglected or evaded; that persons taking out certificates do not file the statements required by it, that the Courts have no proper means of compelling them to do so, and that large amounts of debts are thus collected under certificates obtained for trifling sums.

4. Various suggestions have been made for enforcing compliance with the provisions of the note; but it appears to the Government of India that there are objections to any device for securing the fee which involves the imposition on the person obtaining the certificate of a duty to be performed after he has obtained the certificate.

The great mass of the people who take out certificates are so indolent or careless or unintelligent, that there is little hope of getting them to comply with the provisions of such a law; and the consequence is that, if it is not allowed to remain a dead-letter, as the present law has been, public officers will be constantly compelled to inflict penalties on large numbers of persons, many of whom have been guilty of no deliberate wrong.

5. The simple plan, as it seems to the Government of India, is that already adopted without any warrant of law by some of the officers consulted, namely, to require each applicant for a certificate to file with his application a schedule of the debts in respect of which the certificate is required, and to amend Act XXVII of 1860, so as to make the certificate good only for the debts entered in the schedule, at the same time allowing the certificate-holder, if he afterwards finds that he needs a certificate for other debts, to obtain an extension of the certificate on paying the additional duty, and (if the Court requires him to do so) giving additional security.

6. The only objection that has been taken to this arrangement is that taken by the Calcutta High Court in their Registrar's letter No. 54, dated 10th January, 1880, printed in paper No. 20 to the Court-fees Bill. They fear that "improper use" might be made of the schedule "by fraudulent debtors whose debts were not in the knowledge of the applicant at the time [he filed the schedule], or in some way prejudice might arise."

Now, there is little doubt that a fraudulent debtor would take the point referred to, and that he would thereby put the certificate-holder to the trouble of explaining his omission to enter the debt in his original schedule; but there would be no great hardship in this, and there would, on the other hand, be a certain compensating advantage, inasmuch as (as observed in one of the replies to the circular) the fear of this would stimulate applicants for certificates to be careful in compiling their schedules.

7. Assuming that the law is to be amended in the manner proposed, a further question arises as to what debts the applicant for a certificate should be bound to include in his application. Should he be bound to include—

(*a*) all debts known to him to be outstanding, including those which could be realised equally well without a certificate; or

(*b*) only those debts which he chooses to include, because he believes he cannot realise them without a certificate?

The former, it is believed, would be more in accordance with the views of those who framed the existing law; but it appears to the Governor General in Council that it would be sufficient to adopt the second mode of valuation and allow the applicant to take out a certificate in respect of such debts only as he thinks fit. No doubt, a larger revenue might be obtained by insisting on the other mode of valuation; but it is apprehended, having regard to the class of people who take out these certificates, that any system requiring the applicant to give a complete list of debts would, if it was to be thoroughly enforced, necessitate proceedings of an inquisitorial nature for which no sufficient machinery exists and which it would not be worth while to undertake for the sake of the additional revenue to be obtained.

8. The rule which it is now proposed to lay down, while it dispenses with all proceedings of an inquisitorial or penal nature, may reasonably be expected to lead to some increase of the revenue under this head, inasmuch as, the certificate being expressly limited in its operation to the debts specified in it, the necessity of including in it all debts except those due from persons standing in some peculiarly friendly or confidential relation will be brought home to the applicants, and debtors will probably become alive to the risk they run in paying a debt which is omitted from it.

The additional revenue realized will not, as just observed, be as large as if the alternative mode of valuation were adopted, but this is a result which, for the reason already stated, the Government is prepared to accept.

9. The present Bill has been prepared for the purpose of carrying out the above views. The effect of it, if it becomes law, will be that every applicant for a certificate under Act XXVII of 1860 will be required to state in his application the debts in respect of which he desires the certificate. It will be in his option to include what debts he pleases. He will pay duty only in respect of the debts which he elects to include, and the operation of the certificate will be limited to those debts. If he subsequently desires to include other debts, he can have the certificate extended to them on paying the additional duty. The note appended to article 12 of the schedule to the Court-fees Act will not apply to him. For the rest, the amendments made by the Bill in Act XXVII of 1860 and in the Probate and Administration Act, 1881, are of an unimportant nature, and merely such as are necessitated by the above alterations in the substance of the law.

Resolution No. 2132R—A, dated 26th June 1882.

OBSERVATIONS.—With the letters read above are submitted the reports by the Managers on the transactions of the Fine Fund for the year 1882-83, which show a total of Rs. 3,540 at the credit of the Fine Fund on 31st March last, or Rs. 729 in excess of last year.

2. On the *Northern Bengal State Railway* the year opened with a credit of Rs. 1,110, and the receipts amounted to Rs. 1,858, of which Rs. 108 were realized by the interest due on the amounts deposited in the Provident Institution during the previous year. From this amount Rs. 7-6 were subsequently remitted, and Rs. 2,195 were expended for the benefit of the employés and their families, thus:—Rs. 1,105 in aid of the different schools, Rs. 551 on account of amusements for natives and Europeans, Rs. 350 given in prizes to the station staff, and Rs. 189 spent in repairs to native institute.

3. On the *Tirhoot and Patna-Gya State Railways* there was a sum of Rs. 1,085 at the credit of the Fund in the beginning of the year, which was increased by Rs. 944 from fines realized, and Rs. 54 from the interest on assets, making a total of Rs. 2,083 at the credit of the Fund. The disbursements during the year amounted to Rs. 112, of which Rs. 22 was on account of fines remitted, and Rs. 90 on account of supplying books and a clock to the institute.

4. On the *Calcutta and South-Eastern State Railway* the fine account opened with a balance of Rs. 317, which was increased by Rs. 74 by fines imposed, and Rs. 13 by interest from the Provident Institution. There were no disbursements.

5. The fund on the *Nalhati State Railway* opened with a credit of Rs. 315, which was supplemented during the year by Rs. 90, of which Rs. 77 were by fines realized, and Rs. 13 by interest from the Provident Fund. The disbursements were Rs. 6 only, which was the amount of the subscription for certain native papers purchased for the benefit of the employés.

RESOLUTION.—Though the fines realized exceed the figures of last year, the results, on the whole, are satisfactory. More attention should, however, be paid to the question of making payments from the Fund for the benefit of the employés. Much has been done in this direction by the Northern Bengal State Railway, and the Lieutenant-Governor would be glad if the other Managers could see their way judiciously to authorize heavier disbursements. The fund of the Tirhoot Railway can afford to give a grant-in-aid of Rs. 50 per month towards a middle class school to be established at Somastipore. This question, affecting the welfare of the employés, should receive the immediate attention of the Manager.

ORDER.—Ordered that a copy of this Resolution be forwarded to the Secretary to the Government of India, Public Works Department, and to the Managers of Bengal Provincial Railways for information.

Ordered also that this Resolution be published in the *Calcutta Gazette*.

By order of the Lieutenant-Governor of Bengal,

S. T. TREVOR, *Col.*, R.E.,
Offg. Secretary to the Govt. of Bengal,

METEOROLOGICAL OFFICE, BENGAL,
The 28th May 1883.

JOHN ELIOT,
Meteorological Reporter to the Government of Bengal.

RAINFALL SUMMARY FOR THE WEEK ENDING 25TH MAY 1883.

DURING the past week considerable changes have taken place in the meteorological conditions of Northern India. From the 19th to the 22nd they were similar in character to what they had been for the previous month. Temperature was excessive and the air abnormally dry over the whole of Upper and Central India. Pressure was very low for the season. Strong westerly hot winds blew down the Gangetic plain, whilst equally strong southerly winds brought up moisture into Bengal which fell during thunder-storms over the Province, and more especially in the northern and eastern districts in the neighbourhood of the hills. All these conditions were very fully marked on the morning of the 21st, when the barometer was about one-fifth of an inch below the average over a considerable part of Upper India. The air was remarkably dry, more especially over the Western Himalayas. The humidity on the morning of the 21st, at Mussoori, was only 7; the corresponding average humidity being 50.

The prolonged continuance of these abnormal weather conditions was at last followed by very considerable changes. Pressure increased rapidly in Behar, Bengal and Northen India, whilst it continued relatively low in Central and Southern India. Easterly winds advanced up the Gangetic valley cooling the air and increasing its humidity. This was followed by a series of dust-storms and thunder-storms in Upper India.

In Bengal the changes were equally well defined, but of an opposite character. The sea-winds decreased rapidly in strength and were very feeble and unsteady during the remainder of the week, whilst the moisture they brought up passed westwards to increase the humidity of the air in Behar and the North-West Provinces. Hence after the 21st hardly any rain fell in the Province, beyond a few showers in Orissa, South Behar and Chutia Nagpore.

The following table indicates approximately the variation of the temperature and humidity from the average throughout the Province for the past week :—

STATIONS.	Temperature above or below average.	Humidity above or below average.
Patna	1·0 above	6 below.
Gya	3·5 below	10 „
Hazaribagh	1·5 above	3 above.
Burdwan	4·0 „	10 below.
Cuttack	1·0 below	3 „
Chittagong	1·5 „	5 „
Dacca	2·0 „	4 above.
Purneah	1·0 above	2 „

The variations are considerably smaller than they have been for the past two weeks.

A reference to the table shows the character of the distribution of rainfall during the week. Local showers fell on the 19th in Orissa, South-West Bengal, and East Bengal. Fairly general rain was received in Orissa and in the Moorshedabad district, where rainfall had been considerably below the average since 1st April. Local showers again fell over the same area on the 20th, and extended to the north-eastern districts of North Bengal and to North Behar. On the next day the weather was generally unsettled over the whole of the Province, and thunder-storms, with moderate heavy showers of rain, occurred in North and East Bengal, North Behar, and the Nuddea, Khoolna, Jessore, and Moorshedabad districts of South-West Bengal. A few scattered showers also fell in Chutia Nagpore and the Sonthal Pergunnahs.

During the remainder of the week frequent showers fell in Orissa, and a few light showers in the Shahabad and Gya districts of South Behar. Light showers accompanied thunder-storms in the Julpigoree, Cooch Behar, and Rungpore districts of North Bengal on the 25th.

The rainfall of the past week was considerably below the average except in Orissa and North Behar. Bengal only received 75 per cent of its normal amount.

The following table, which gives the distribution of rainfall for the past week, and for the present month up to the 25th, indicates that the present month has been characterized by rainfall considerably in excess in East and North Bengal and by deficient rainfall over the remainder of the Province, the deficiency being relatively greatest in South Behar and Chutia Nagpore :—

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86 formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The direction of the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o overcast, t thunder, d drizzling rain, lr lightning reflection, p passing temporary showers.

Remarks.

Coal, up ... ... Mds. —33,000 Rs. +7,900.
The increases in receipts occur at Asansol, Seetarampur and Giridih chiefly.

Coal, down ... ... Mds 2 01,890 Rs. 27 960
The demand in Calcutta was brisk during the period for both steam and smithy coal.

Wheat ... ... Mds. 2,79,990 Rs. 1,73,720
Increases 213 % in weight and 393 % in earnings.
The exports from Calcutta during the two periods were—

March 1882 ... ... Mds. 90,614
Do. 1883 ... ... „ 4,23,636

Hides and Horns ... ... Mds. 33,580 Rs. 17,790
There has been a slight improvement in the hide market in Calcutta.

Opium ... ... Mds. 27,820 Rs. 31,680
No despatches last year.

Salt ... ... Mds. 1,20,520 Rs 38,430
A large business was transacted in Calcutta during the period.

Seeds ... ... Mds. 88,740 Rs. 15,230
The traffic during March consisted largely of rape-seed sent to Calcutta for export.

Spices ... ... Mds. 15,980 Rs. 20,880
Large consignments of spices were despatched from Burhea, Mokameh Ghât, Barh and Patna Ghât to Cawnpore and stations above, where there appears to have been an unusual demand.

Decreases.

Cotton ... ... Mds. 20,020 Rs. 21,040
This falling off occurs in pressed cotton.

Rice ... ... Mds. 1,23,740 Rs. 91,020
Other grains ... ... „ 36,450 „ 18,750
This decrease is attributable to the demands in the North-West, which were large last year, not being so pressing this year.

Iron ... ... Mds. 7,610 Rs. 11,310
The falling off is in first and second class iron; the former owing to dullness in the market, and the latter to there being less despatches of machinery to the mills, Cawnpore.

Juggree ... ... Mds. 1,25,440 Rs. 52,220
Sugar ... ... „ 9,620 Rs. 8,330
In 1882 there was a large demand in Rajpootana and Central India, while the enquiry this year has been normal.

Piece goods ... ... Mds. 25,520 Rs. 45,850
This is probably only a fluctuation owing to less demand for the time in the North-West and Punjab.

Railway materials (Foreign) ... ... Mds. 8,630 Rs. 15,670
Less despatches to Foreign lines.

Saltpetre ... ... Mds. 23,610 Rs. 14,450
The fall in the market prices in Calcutta appears to have retarded despatches.
The train mileage for the period has been, excluding maintenance and locomotive coal train mileage—

URBAN BROUGHTON, *Offg. Traffic Manager.*

Report on Fluctuation of Traffic on the Tirhoot State Railway for the month of April 1883.

THE total quantity of goods carried during the month of April 1883 aggregated maunds 3,27,604 as compared with maunds 3,00,379 carried during the corresponding period of 1882, and maunds 3,89,930 carried during the previous month, showing a decrease of maunds 32,775 in one case, and of maunds 62,316 in the other.

Of the several increases and decreases, the following are the most prominent ones and worthy of special explanations:—

INCREASES.

Food-grains ... ... Mds 31,683

The large increase in this staple is due to the large demands in foreign markets.

Gunny-bags, empty ... ... Mds. 767

The increase under this head is due chiefly to the brisk trade in staples carried in bags, though the low prices ruling have no doubt induced merchants to buy up.

Piece-goods ... ... Mds. 7,082

The increase in this staple is due to large demands on account of this being the time for Hindoo marriages, and this year they have been more numerous than in other years, as for two years more there will be no auspicious period.

Saltpetre ... ... Mds. 5,381

Under this head the increase is due to the brisk demand in the Calcutta market.

Seeds ... ... Mds. 20,231

The increase under this heading is due chiefly to merchants being anxious to get their seeds down to Calcutta early to enable them to take advantage of any favourable turn on the market.

Hides ... ... Mds. 4,873

This increase is owing to the favourable rates now ruling in the Calcutta market for Durbhanga hides.

DECREASES.

Coal ... ... Mds. 27,791

This decrease is chiefly due to the Railway extensions being nearly completed.

Iron ... ... Mds. 10,031

Under this head the decrease is chiefly due to a fewer number of boilers and other kinds of heavy machinery being taken up for Indigo factories, as most of them got their machinery last year.

Salt ... ... Mds. 24,919

The decrease in this staple is due to the large imports during the last three months, the stock in hand now being more than ample for the local demands.

For regulating the conduct of business at meetings of the Commissioners.

1. An ordinary meeting of the Commissioners shall be held on the second Tuesday of every month.

2. All such meetings shall be convened by the Chairman or Vice-Chairman, by notice to be served on each Commissioner not later than three days preceding the date of the meeting.

3. In the event of the Chairman or Vice-Chairman determining to call an extraordinary general meeting, not less than one clear day's notice shall be given to the Commissioners of the day fixed for such extraordinary general meeting.

4. Every notice concerning a meeting shall be accompanied by a list signed by the Chairman or Vice-Chairman of the business to be brought forward at such meeting.

5. Any Commissioner wishing to bring forward any business shall give notice of such intention in writing to the Chairman a week before the meeting, when the Chairman or Vice-Chairman shall include such business in the list of the business to be laid before such meeting. But the Chairman may, in urgent cases, at his own discretion, accept a notice sent in any time before the issue of the notice of meeting.

6. No business shall be considered, or proposition received, at any meeting if it does not appear in the list of business.

7. At all ordinary general meetings the proceedings shall be commenced by the Chairman or Vice-Chairman reading the minutes of the last ordinary or extraordinary general meeting with the view to ascertain if the resolutions passed at such meeting have been faithfully and accurately recorded in the words used by the movers of such resolutions, or if amendments thereto shall have been passed, in the words used by the movers of such duly passed amendments.

8. In the event of any Commissioner being of opinion that any such resolution or amendment has not been accurately recorded, it shall be competent to such Commissioner to state his opinion to that effect, and thereupon the Chairman shall decide whether or not such resolution or amendment has been accurately recorded by reference to the original draft of such resolution or amendment, written and signed by the mover; and if he finds the minute to be inaccurate, he shall then and there make the necessary correction in the minute-book, provided that no discussion as to the propriety or otherwise of such resolution or amendment shall be allowed.

9 The order in which the several subjects shall be discussed at a meeting shall be determined by the order in which they are mentioned in the Chairman's list, provided that if two-thirds of the meeting consent to the alteration, the order in which any subject stands on the Chairman's list may be altered at the meeting.

10. On the Commissioners proceeding to the consideration of any subject, the Chairman or Vice-Chairman shall first read to the Commissioners the letters and papers connected with such subject, and thereupon any Commissioner may make a proposition regarding such subject, and address the meeting prior to the question being put to the vote by the President, provided that such Commissioner shall confine his remarks to the subject under consideration, and that after discussion, and before the original proposition or any amendments on it are put to the vote, the mover of the original proposition shall have the right of addressing the meeting by way of reply to any objections or amendments put forward against his proposition.

11. Every proposition made shall be written out by the proposer and signed by him.

12. Every proposition shall be seconded by one Commissioner, who shall also sign or initial the draft proposition written by the proposer.

13. The Commissioner who first addresses the meeting shall be entitled to be heard first; and should more than one Commissioner address the meeting, the right of precedence shall be determined by the President.

14. Any Commissioner shall be at liberty to call the attention of the President to a point of order, even when a Commissioner is addressing the meeting.

15. Any Commissioner may propose an amendment to a proposition to the effect that certain words in the proposition originally made be omitted therefrom, that certain words be substituted, or that certain words be added thereto, provided that such amendment be proposed when the subject is being discussed, and the original proposition is still before the meeting

16. The President shall have the power of declaring the discussion on any question closed, and of putting the question to the vote, saving the privilege of the proposer to sum up in favour of the original proposition.

17. On the discussion being concluded, in the event of several amendments having been proposed, the President shall put the last amendment to the vote first. If negatived, he shall put the second amendment, and then the first. And if all the amendments are lost, the original proposition shall be put to the vote.

18. On a proposition being made and seconded, the President shall put the same to the vote subject to rule 10.

19. Votes shall be taken by show of hands.

20. All votes shall be put by the President, first in the affirmative and then in the negative form.

21. Any Commissioner may decline to vote on any subject without assigning his reason for abstaining from voting.

22. Any Commissioner may make a proposition that a subject under consideration be postponed, or that the consideration of it be adjourned either to a fixed date or *sine die*.

23. It shall be competent to any Commissioner to move a resolution to the effect that the subject under consideration be referred to a Committee, provided that such Commissioner shall also at the same time propose the names of the members of such Committee.

24. It shall be competent to the members of any such Committee appointed to vote at any general meeting on the subject reported on by such Committee.

25. Should any Commissioner object to any part of a report submitted by such Committee, such Commissioner shall be competent to make a proposition that the report be adopted, except with regard to the particular part objected to by him; or that such report be again referred to the Committee; or that the report be entirely set aside.

26. A subject once finally disposed of by a resolution duly passed at a meeting shall not be re-opened at any subsequent meeting, unless at least three-fourths of the Commissioners present at a meeting, of which due notice has been given, consent that such subject shall be re-opened and re-considered, provided that resolutions adjourning the consideration of a subject may be re-considered at any meeting after the usual notice.

27 The minutes of the proceedings of all meetings shall show the names of the President and of all members attending, the words of every proposition and every amendment; and in cases where votes are taken, the number of votes *pro* and *con*; and when a majority of the meeting considers it necessary, the names *pro* and *con*.
